Installation and User Instruction For Solar string light

Please read before installation, thanks

General Introduction

The solar light consist a solar cell, a rechargeable battery and led lights. And the three parts are preassembled. Light from the sun charges the battery during the day time and the energy stored in the batteries powers the lights at night. The lights on time maybe vary, depending on how much power received from sunlight during day time.

1. The light is designed for outdoor use only in an open location for receiving direct sun light.

2. Please avoid putting the unit under shadows from buildings, trees and walls.

3. The unit is designed to illuminate in dark conditions and may not operate if other source of strong lights reflects on the panel. Please avoid street light and floodlights to impact the PIR sensor.

4. Choose a soft ground to push the spike in to locate the light.

Installation instructions

User Instruction

1. Remove the package and make sure everything is in a good condition.
2. Assemble the solar panel to the cradle on the anchor spike.
3. Turn the ON/Off switch at the bottom to " ON " position.

5. Put the light at the right and safe place.

Specifications
10/20/30 led solar string lights(series1):

1. Solar panel:2V 100mA
2. Light source: Super bright led
3. Ni-Mh batterues: AA size,300mAh~600mAh,1 PCS
4. Charging time:6 ~ 8h
5. Working time: steady on mode 8 ~ 15h;flash mode 10 ~ 20h
6. Modes of "ON"," OFF" and " Flash "
7. Working temperature: -20℃~+60℃

### 40/50/60 led solar string lights(series2):

1. Solar panel:2V 100mA
2. Light source: Super bright led
3. Ni-Mh batterues: AA size,600mAh,1 PCS
4. Charging time:6 ~ 8h
5. Working time: steady on mode 8 ~ 15h;flash mode 10 ~ 20h
6. Modes of "ON"," OFF" and " Flash "
7. Working temperature: -20℃~+60℃

100 led solar string lights(series3):

1. Solar panel:2V 170mA
2. Light source: Super bright led
3. Ni-Mh batterues: AA size,600mAh,1 PCS
4. Charging time:6 ~ 8h
5. Working time: steady on mode 8 ~ 12h;flash mode 10 ~ 15h
6. Modes of "ON"," OFF" and " Flash "
7. Working temperature: -20℃~+60℃

200 led solar string lights(series4):

1. Solar panel:2V 300mA
2. Light source: Super bright led
3. Ni-Mh batterues: AA size,1800mAh,1 PCS
4. Charging time:6 ~ 8h
5. Working time: steady on mode 8 ~ 12h;flash mode 10 ~ 15h
6. Modes of "ON"," OFF" and " Flash "
7. Working temperature: -20℃~+60℃

Bulb

The lights bulb is constructed with non-replaceable. DO NOT attempt to replace any bulb.
Shelf life of led bulb is over 20,000 hours.

Warning

1. This product is not a toy. Please keep away from children under 3 year old.
2. This product contains small parts which may cause choking hazard if detached.
3. Please do not allow children to play with the anchor spike since the end point of anchor spike is sharp.
4. Keep away from fire or other sources of heat.
5. Avoid the batteries and wiring dip into water.
6. Some condensate may form inside the unit or solar panel in cold conditions. This is normal and can be ignored.

Package Included
User Manual * 1
Solar panel * 1
20cm Spike * 1
String Light * 1
