Money Saving Special Edition

Frozen & Lower Prices on Top Brands

Practically every product in this Catalogue is the same price as last year or has been reduced. Look out particularly for brands **PondXpert** and **Hozelock** where we are freezing and reducing prices while pre-season stocks last.

**PRICE
FREEZE**

Solar Technology Breakthrough

The engineers at **PondXpert** have spent years developing solar equipment that now includes a UVC – this enables a pond to be sustained solely by solar radiation.

Did You Know?

A typical tropical fish tank (180ltr) will cost approx £450 per year to run. Fortunately, a typical 6000 litre pond can cost around about £83 per year to run.

Wot no heater?

A 200W Heater is the aspect that increases the running costs of a tropical tank. Fortunately pond fish are cool!

Eco Motor Pumps

The pondkeeping industry has been focussing on a reduction of energy costs for some time. Now this action is paying off for consumers: eg

PondXpert UltraFlow 3000/5300LPH Pumps are just 10/30 Watts power.

Annual running costs for these pumps (365days/24hrs) is just £29 and £89 respectively.

Pondkeeping on a budget?

PondHero All-in-One 1000

Features a pump, filter and UVC. Just 28 Watts (£83 annual running cost*). RRP £119.99 **Our Price £59.99**

A super cheap solution for ponds up to 2000 litres. This filtration system boasts a 13W UV but it should be noted that the small foam near the impeller will need to be cleaned regularly if water is dirty. Lower maintenance advanced All-in-Ones can be found on pages 33-35.

- Clear water
- Healthy pond
- Waterfall
- Fountain

Get Your pond healthy... Quick

PondXpert Filter Start Gel+

"... balanced my new pond "

PondXpert Filter Start Gel+ is a concentrated bacteria culture gel for use in new filters. This gel-based solution will stick to the filter media, allowing the nitrifying bacteria it contains to rapidly colonise your filter.

1 litre treats 15,000 litres 2.5 ltr treats 37,500 litres
Beneficial bacteria will speed up the maturation of filter media
Helps to convert ammonia and nitrite, resulting in less stressed fish.

PondXpert Filter Start 1Ltr Was £29.99 **Now £14.99**
PondXpert Filter Start 2.5Ltr Was £59.99 **Now £29.99**

Welcome to your copy of our **Spring Catalogue**. Apologies for our delay in getting in touch this year but we hope the wait is worth it! We now bring to your attention more **EXCLUSIVE** products than ever before. This list includes a **Solar UVC** (pg 46) & indeed a beefed up solar category that is growing in popularity. For large pond owners there is a new **SpinClean AUTO 75** filter (pg 67) & a new powerful **UltraFlow 20000** pump (pg 51).

Pond Building Guide - Preform Ponds

Filbert Frog's Top Tip

Pre-formed ponds must have good all-round support. Be sure to tamp and compress the sand or soil between the hole and sides of the pond.

1 Place the pond in position and carefully mark out its shape with stakes. Don't turn the pond upside down to mark out the shape, as this gives a mirror image of the pond and will not match up.

2 Position the pond right side up in the exact place you want it and use it as a guide or template while digging around the stakes. Make your outline 4-6 inches (10-15cm) larger than the pond itself. Verify the first level and start digging down to the shelves.

3 Reposition the pond, mark out the inner deeper section and continue digging out to the bottom. Be sure that the hole is slightly deeper than the actual depth of the preformed pond and verify that the pond is level. Remove any loose objects from the hole and add about 2" (5cm) of sand or fine soil to the base level and shelves.

4 Position the pre-formed pond into the excavation and verify it is level. Back-fill any spaces with sand or soil. Fill with water and leave to settle for at least a week before finishing off with your choice of edging.

Pond Tanks

Preformed Ponds - Buried Only

Preformed ponds are the easiest and quickest way to create a garden pond.

- Predetermined shape and depth
- No worries about creased material
- Ideal for poor soil conditions

PondXpert Preformed Ponds

A new range of durable ponds manufactured from high density polyethylene. Black colour finish and Lifetime Guarantee on all ponds. Models 2 and 3 have a smooth finish whereas the rest of the range are textured. (Note: dimensions include a 5cm Lip/overhang (11cm on 'Goldfish', 8cm on 'Koi').

Four great shapes to choose from:

1 *Minnow	RRP £59.99	Our Price £29.99	Dimensions: (LWH cm) 85 x 63 x 29 (2' 7" x 2' 1" x 1')	Volume: 55 Litres
2 Guppy	RRP £69.99	Our Price £34.99	Dimensions: (LWH cm) 90 x 65 x 28 (2' 8" x 2' 1" x 1')	Volume: 70 Litres
3 Rudd	RRP £79.99	Our Price £39.99	Dimensions: (LWH cm) 102 x 70 x 30 (3' 3" x 2' 1" x 1')	Volume: 100 Litres

Barrel Ponds

- ✓ Recycled
- ✓ Sustainable
- ✓ Attractive

Oak barrels are used extensively in the wine and spirits industry. Post original use they make perfect receptacles for water and highly attractive for use as garden ponds.

- ✓ Relocatable
- ✓ Compact
- ✓ Each Unique

Half-Barrel 60cm - Wood

We predict this classic 60cm wood barrel will be the most popular choice. Standing approx 45 cm tall (1'6") and 61cm at its widest (2') this Barrel can hold approx. 90 litres of water. Weight approx. 23KG.

Includes **FREE** PondXpert Flexiliner Pond Liner 2x2m worth £11.96

Wood Half Barrel 60cm Our Price £59.99

Half-Barrel 60cm - Plastic

A lightweight value option is this plastic tub. Despite the low cost it looks just like the real thing!

Further advantages are that this version does not have the imperfections and leeching that can occur with wood.

Standing approx 38 cm tall (1'3") and 61cm at its widest (2') this Barrel can hold approx. 75 litres of water. Weight approx. 3KG.

Our Price £39.99

Perfect for Pebble Ponds

See page 22 for some fabulous offer bundles. Match up either 60cm barrel type with a solar pump and pebble pond kit to create a spectacular feature.

Barrel Ponds

NEW

Half-Barrel Pond XL 85cm **FREE Gifts worth £41.95**

SunnyPump Island 150 info see pg 40

For those wanting a statement piece this is the Barrel to purchase! Standing approx 63 cm tall (2'1") and 85cm at its widest (2' 9") this Barrel can hold approx. 250 litres of water.

Note: Weighing in at over 80KG you will need at least a couple of people to help move this pond into position.

Our Price £249.99

Are Wood Barrels Fish Safe?

Barrels are watertight and should not require any additional waterproofing. However, there may be residue from their previous life that may be harmful to fish or other wildlife.

Therefore we include an optional-use pond liner with our barrels that can be easily cut down to size and attached using a staple gun as shown.

Note: Rustic finish Wood Barrels are genuine second-use. After having a 'first life' in industry the Barrels will vary in colour and condition. Also they all have a small notch in the top where they were 'tapped'. Personally the differing history of each Barrel we think adds to their 'uniqueness' and charm so please do not expect to receive a perfect-finish 'new' Barrel on delivery.

Half-Barrel XL Solar All-in-One Kit

As XL Barrel Only offer including free gifts but also includes. PondXpert TripleAction Solar 800 All-in-One Pump. **Save an additional £100** (see pg 47 for pump details)

Note: pump will need to be stood on to something to raise it above the floor and be reachable for maintenance..

Waterfall Spillways

The pumps on this page are ideal for running a waterfall.

To get the most impressive results from a waterfall we strongly recommend using a spillway.

This is positioned at the waterfall outlet and ensures a natural wider 'spread' of water than from hose alone.

This makes the water flow far more realistic to nature's own creations.

Superfish Waterfall Spillway 19cm 20, 25mm £29.99

Superfish Waterfall Spillway 44cm 25, 40mm £89.99

Both Waterfalls ship complete with filter media included.

Units can be used as rudimentary pond filters as well as spillways.

Small Fall: 25x20x25cm, **Large Fall:** 35x42x25cm (LWH)

Pond Fun Features

PondXpert ViewTube Fish Towers

Watch in wonder as your fish magically appear and swim above your pond surface.

Made out of clear acrylic the Tower stands 65cm high (40cm tube + 30cm stand) with a diameter of 20cm

Fish will be attracted by warmer water inside tube or food can be added as an incentive.

Designed for small/medium fish. Not suitable for mature koi.

RRP £139.99 **Our Price £69.99**

Installation Notes

Metal stand must be placed on a stable flat surface. You will need to get into your pond and completely submerge the tower underwater before using a 'tilt and lift' motion to position it on its stand with base of tower still under the water.

Alternatively if you have a pond vacuum this can be used to suck the air out of the dome and it will automatically fill with water.

PondXpert ViewTube Large

Wider tower allows big fish to enjoy the view!

50% larger diameter column (30cm vs 20cm).

RRP £199.99 **Our Price £99.99**

Velda Koi Dome

3D 'fish viewer' that floats on the surface of your pond.

Medium 35cm Dome RRP £89.99 Our Price £79.99

Jumping Jet Solar Pumps

We love our solar pumps but sometimes feel that the water jet display can become a bit predictable. These new solar pumps emit a spitting truncated jet of water.

These jets can be programmed to produce a constant consistent pattern of 'spits' or a random selection.

(note: continuous flow not achievable).

Max Flow: 250LPH
Power: 2 Watts
Battery: Lithium 3.7V
Outlet: 8mm
RRP £99.99
Our Price £59.99

Max Flow: 500LPH
Power: 9 Watts
Battery: Lithium 9V
Outlet: 12mm
RRP £169.99
Our Price £79.99

- Solar Splitter Special Deal -

New PondXpert Ornamental Spitters shown opposite can be partnered up with a range of pumps. Both electrical or solar pumps are suitable.

We have found that solar pumps are the most popular option so wanted to celebrate the launch of new Spitters and New Solar Pulse Pumps by offering you a special 'Combo Deal'.

Below are our recommended pairings but if a different pump matches your needs then give our Call Centre a ring and we'll deduct £15 from your order cost when a pump & spitter are bought together.

PondKeeper *Pond Liner Build Project*

We built our pond using an EasyPond 30,000 Complete Kit. We then finished the pond with PondXpert Stone Liner and underwater lights.

For a big pond like ours we recommend hiring a mini excavator. Hire by the day or weekend - great fun!

Finishing the dig by hand - digging out shelves and smoothing the surface. Get rid of as many stones as you can.

Due to the very stony nature of the ground we chose to upgrade to Fleece Underlay (Dog optional!)

Once the liner has been unfolded it's time to smooth it into the shelves and corners as best you can (barefoot is best).

Fill pond with water. We filled ours straight from the mains via a hosepipe.

Weigh liner edges down then smooth away folds as water starts to fill the pond.

Pond Liners

All ponds start by digging a hole in the earth and then lining it before filling with water. A liner is essential as it creates a watertight barrier to stop the water seeping back into the earth.

We are a pond liner specialist and we want to guide you into making the correct choice.

Our 'ready reckoner' in the first column of our liner listings (overleaf) shows the resulting pond that can be created by the many pre-cut sizes we have in stock.

With flexible liners the choice of pond shape and depth are up to you. If keeping fish we recommend at least part of the pond to be 1m deep for fish to overwinter.

Calculating your liner size

Length =
max. pond length + (depth x 2) + 1m overlap

Width =
max. pond width + (depth x 2) + 1m overlap

PondXpert EPDM Bonding Mastic 310ml

Use to bond rubber liners.

Our Price £14.99
Cartridge Gun £7.99
Mastic + Gun Set £19.99

★★★★★
Quality Guarantee

Firestone Rubber 1.02mm Only £12.85 per sqm (£1.19 sq foot)

This EPDM geomembrane is the thickest liner we sell (1mm). New to our range, selected to compete with Butyl that is unfortunately rocketing in price.

It is straightforward to seam or repair and is guaranteed for 20 years. Uniquely this liner sizes is measured off in imperial measurements (feet).

Over 60 more sizes exist online - We can supply any of the listed widths in maximum lengths of 100' (30.5m)

Pond Liners

All successful pond projects start with a good waterproof pond liner. A pond liner provides a watertight membrane to stop pond water seeping away.

PVC Pond Liner

We have extended our range of 0.5mm and 0.3mm PVC liners this year. Thicker than LDPE but not tearproof. These are priced:

15yr guarantee Only **£4.49** per sqm (£0.42 sq foot)
30yr guarantee Only **£4.89** per sqm (£0.45 sq foot)

Half Price Underlay with 30yr PVC

Butyl rubber

First choice for professionals for many years. Lifetime guarantee (20yrs on 140sqm plus), 0.75mm thick.

Only **£12.49** per sqm (£1.16 sq foot)

Half Price
Fleece Underlay

EPDM rubber

Same physical characteristics as Butyl but with significant cost savings. Lifetime guarantee (20yrs on 140sqm plus), 0.75mm thick. We find that this synthetic rubber now outsells butyl.

Only **£9.49** per sqm (£0.88 sq foot)

Half Price
Fleece Underlay

Flexiliner LDPE

Our bestselling liner. Double-laminated with a reinforced core. Durable, tearproof yet light to work with. The perfect Garden pond liner.

Half-Price Underlay Offer
Over 100 pre-cut sizes - See overleaf

From only **£1.99** per sqm (£0.18 sq foot)

Bestseller

Underlay

We recommend that all pond liners are underlaid as extra protection for your liner. It helps to prevent root penetration and punctures from small stones/debris. Underlay supplied matches the sqm of our liners.

"Basic" is a budget underlay, providing a good level of protection. Particularly suitable for small ponds or where sand is used as a primary barrier.

Only **£1.80** per sqm (£0.17 sq foot)

"Pond Fleece" premium underlay is a heavy 200gsm needled felt. Recommended for all ponds - particularly larger liners or stoney ground.

Only **£2.80** per sqm (£0.26 sq foot)

Glue & Repair Tape/Kits

Heissner easyFIX Tape Waterproof tape. Available in black or clear colour. 10cm wide x 150cm length.

easyFIX Black Our Price £19.99

"Pebble" or "Stone-Faced" liner protects the exposed parts of the pond liner and makes the transition between pond and land seamless.

This special material is manufactured in the Netherlands and our unique direct relationship with the producer means we can sell it to you at an exclusive price.

With approximately 225 stone particles per square inch this is the best quality stone liner around.

You can find the same product under other brand names elsewhere at a much higher price. *Grab yourself a bargain!*

Filbert Frog's Top Tip

This stone liner can be used to create a beach area which is perfect for me and my pondlife buddies. It lets us get in and out of the water as we please.

Also obstructions such as pond hose and electrical cable can be hidden underneath the additional layer of cover - this makes our pool look a whole lot better!

Water Courses

Our new 'Riverstone' falls have been created to add an instant authentic appeal to your pond. Use individually or join together to create a longer waterfall. Recommended pump flow 1500LPHs.

River Pebbles range come in a beautiful 'aged' appearance - off white with a touch of algae green for an ultra realistic effect.

River Pebbles Stream

70 x 54 x 20cm (LWH)

River Pebbles Drop

69 x 61 x 20cm (LWH)

All Falls on this page RRP £137.99 **Our Price £109.99**

River Slate range come in a beautiful 'aged' appearance - grey with a touch of algae green for an ultra realistic effect.

River Slate Cascade

67x 57 x 16cm (LWH)

River Slate Drop

64 x 62 x 20cm (LWH)

Water Courses

Most ponds have a waterfall. They create a real focal point and the bubbling water helps to oxygenate the pond. Also you will find a natural bank of earth is created by the displaced soil after your pond dig. The following pages show the best preformed watercourses on the market today.

Sandstone Series

are made out of tough fibreglass but the surfaces are hand finished to resemble real stone. These falls can be used individually or joined together to create a longer stream. (Dimensions cm W x L x Pour)

1 Curved Stream
70x107x30cm
RRP £264.99

6 Double Step 55x90x38 RRP £165.99
Our Price £129.99

Filbert Frog's Top Tip

Genuine stone waterfalls look great but are incredibly difficult and heavy to work with. These realistic falls look the part and are far easier to install.

Water Courses

Rockways Rustic Slate Watercourse

This is the finest watercourse we have seen. Supplied in a rustic slate finish it looks incredibly realistic and would grace any water garden.

The course is modular so it can be run as a three piece structure (as shown) or changed to a two or four piece structure.

The top piece includes a 25-40mm hose inlet so the water feed can be disguised.

Overlapping 3 shelf feature as shown is approximately 1.7m x 1m x 0.8m LxWxH

Recommended flow rate 2400lph

1 Top - Shelf with inlet 70x105x15cm

All in one Pumps

EasyClear - The Complete Clear & Healthy Pond Solution.

Multi-function, compact pond technology solutions specially designed for smaller ponds. The traditional pond system includes a pump, UVC and external filter as separate but intertwined units. The thinking behind these new products is to combine all three of these essential items in one compact, submerged unit.

The benefits of this idea are:

- Easy no-fuss installation
- Completely hidden under the water surface - no conspicuous filter boxes, hoses or multiple electrical cable
- Just connect item to electrics, place underwater, switch on. . . and that's it!

Specification

Fountain Pumps

For many an attractive fountain has come to symbolise all that is good about the perfect water garden. From the aesthetically pleasing view of an ever-changing water display to the relaxing patter of falling droplets.

A fountain pumps offers you all of this and more! Your pond and it's inhabitants will thank you too as the moving water helps to aerate the pond by increasing oxygen levels.

Most fountains can do more than one job. For instance part of the water flow can be diverted to create a stream or waterfall.

They can even be used to power a filtration system - especially the 'hybrid' fountain pumps which can handle solids. Consider the fountain pump to be the star on top of the christmas tree.

Your pond is not complete without one . . .

PondXpert Fountasia Pumps

Comprehensive range of fountain pumps offering top features and best value for money.

- Dual Flow Control via sturdy 'T' Piece.
- 1 year guarantee.
- 10m power cable (33 feet).

Cascade Pump

The Cascade falls under the well-known Hozelock brand. Like all of this group's water gardening products it offers a high level of quality at a competitive price.

The cascade pump is an ideal all purpose pump for small to medium displays, fountains, waterfalls or ornaments.

All pumps have a double outlet meaning you can run two features from one pump. eg, a waterfall and fountain and the flow to each can be controlled independently. 3 year guarantee up to 3 fountainheads (as shown).

Fountain/Filter Pump Hybrid

PondXpert Flowmaster Pond Pump

At last a genuine solids-handling pump that can double as fountain pump when required. By removing the secondary (internal) strainer cage (supplied with 3500 & 4500 models only) the tough impellor can handle solids up to 5mm large. Simply reattach the internal strainer to utilise the fountain attachment. *Simple but brilliant idea!*

A genuine fountain pump

A genuine filter pump

Tough impellor handles solids with ease! In our test pond the Flowmaster has worked continuously for 3 years so far. Evidence of the solids dealt with can be seen below in the 'before' and 'after' pics of our test bay.

Model	Max Flow LPH	Flow @ 1m	Hose	Watts	RRP	OUR PRICE
Flowmaster 3500	3500	2500	20/25/32/40	42	£119.99	£59.99
Flowmaster 4500	4500	3600	20/25/32/40	75	£139.99	£69.99

NEW

SolarShower 3000 Booster Panel

25W Panel with connector. Helps to boost flow of your 3000 Pump. Also assists in reducing battery charging time.

RRP £99.99 **Our Price £49.99**

PondXpert SolarShower 3000

Professional solar pump designed to power a waterfall or pond filter. This pump utilises twin solar panels (2 x 25W) to produce 50 Watts of power.

RRP £659.99 **Our Price £329.99**

SolarShower 3000 Control Unit & Battery

Flow can be controlled by use of the optional Control Unit which houses an 18-21V battery.

RRP £199.99 **Our Price £99.99**

21V Mains Adapter

Enables user to charge pump up indoors.

RRP £39.99

Our Price £19.99

Direct Sun Version £329.99

Battery Back-Up Version £399.99

- Special Offer -

SolarShower 3000 Pump + Control Unit / Battery + Adapter Combo Deal

RRP £899.97

Our Price £399.99

SAVE £49.98

Three hoesails supplied
20mm, 25mm, 32mm.

Lift Max: 3.2m
Max Flow: 3000LPH
Max Power: 50W.

Optional control unit
housing 18-21V Battery.

Solar - UVC

Those clever engineers at PondXpert have come up with a new pond product we believe is a world first! A solar powered ultra-violet clarifier to stop pond water going green.

PondXpert Solar UVC 5W

The Solar UVC is designed to illuminate for two hours per day. Simply set once then the onboard memory will ensure this same start time is selected daily. The Clarifier unit itself is submersible and designed to be placed underwater with the Panel positioned dry/pond-side. The 5 Watt UVC bulb is powered by the sun with excess solar energy stored in the lithium battery.

RRP £159.99 **Our Price £79.99**

Solar - Filter

Most solar pond pumps are designed to create a fountain - if the fountain is disconnected and hose attached to the outlet the water can be fed to a different use (eg, small waterfall, pondside spitter or UVC). BUT Solar pumps tend to be small and light in weight and their small impellers that can get clogged with dirt very easily. Without protection we've found they aren't really suitable at producing a reliable flow for a pond.

To use a solar pump for this alternative non-fountain use it is strongly advised that an underwater filter be used. This holds the pump steady in upright position and collects dirt and debris before they reach the pump.

PondXpert Solar Filter Box (TripleAction)

The filter box used in the PondXpert TripleAction Solar pumps is available for separate purchase. It is similar in design and size to the PondXpert Eco-Filter 2000 shown above but comes complete with gravel and biomedica (biological cleaning and ballast). Suitable for all solar pumps.

RRP £99.99 **Our Price £49.99**

This technological breakthrough means that 'wire-free' water gardening becomes a reality!

Note: Solar UVC needs to be paired with a pump to push water past the UVC bulb. This pump power should be 400 to 1000LPH in flow strength.

Model	Pond Size Lts	UV Watts	RRP	OUR PRICE
EcoFilter 2000	2000	0	£79.99	£39.99
EcoFilter 4000	4000	0	£99.99	£49.99

Both the above filters need the addition of ballast to keep them submerged under the water. Further info see page 57

Solar All-in-One Pond Filtration System

Taking advantage of the latest technological solar UVC and filtration breakthrough we are proud to be able to bring to your attention the first solar 'All-in-One' Pumps.

Now the water in a small pond can be kept clean and healthy without any mains electric wiring or running costs!

Solar Powered Pumping with renewable energy

- ✓ Enables a pond to be positioned anywhere without need to access mains electric
- ✓ The first pond filtration system with zero running costs!
- ✓ Mains adapter included for emergency use (charging battery) during prolonged periods of poor weather.

Model	Max Pond Lts	UV Watts	Max Flow	Panel Power	Outlet Size	RRP	OUR PRICE
TripleAction Solar 800	800	5W	450LPH	9W	12mm	£299.99	£149.99
TripleAction Solar 1600	1600	5W	850LPH	12W	12mm	£399.99	£199.99

Note: It is possible to create your own All-in-One Solar Set by purchasing components individually but these TripleAction Sets **save you over £25** on buying items separately.

TripleAction Filtration Set Components

UK Electricity Costs

Movement is essential in a garden pond. In nature this occurs naturally in streams, rivers and lakes. To create our own 'aquatic universe' in our own properties we have to rely on electricity to create this movement.

As you will no doubt be aware the cost of energy in the UK has increased rapidly in the last 18 months. The current unit rate for people in England, Scotland and Wales paying by direct debit is an average 34p/kWh of electricity, with a standing rate of 46p per day.

This is double the price it was back in Oct 2020-Mar 2021

We appreciate this rise in costs is alarming, therefore we think its useful if we provide you an idea of how much it costs to run a pond and that we pass on help and advice to help reduce your bill.

Example Pump Running Costs (excludes standing charge)

Pump Model	Min W	Max W	Annual Running Cost	Pump	Watts	Running Cost
VariFlow 10000	25	85	£74.45 - £253.13	TripleAction 2000	24	£71.47
VariFlow 20000	34	187	£101.25 - £556.89	TripleAction 6000	45	£134.01
VariFlow 30000	45	385	£134.01 - £1146.53	TripleAction 15000	55	£163.79
VariFlow Strainer+ 5000	24	43	£71.47 - £128.05	EasyClear 3000	25	£74.45
VariFlow Strainer+ 10000	30	92	£89.34 - £273.98	EasyClear 6000	40	£119.12
VariFlow Strainer+ 20000	52	205	£154.86 - £610.49	EasyClear 9000	55	£163.79
VariFlow 42000	105	450	£312.69 - £1340.10			
VariFlow 52000	180	600	£536.04 - £1786.80			
MightyMite 2000	35		£104.23			
MightyMite 3000	55		£163.79			
UltraFlow 3000	10		£29.78			
UltraFlow 5300	30		£89.34			
UltraFlow 10000	80		£238.24			
UltraFlow 20000	180		£536.04			

Observations

The additional price premium for a pump with an 'eco' motor (UltraFlow/VariFlow) is soon paid off by savings on running costs.

Costs shown are based on running the pumps 24hrs/365 days annually. In reality pumps could be turned off during the cold season halving this cost.

Other pond items (eg, filter, UVC) require very low power so cost negligible.

Solar Pumps

Solar offers the best value power at zero cost!

Over the years we have cultivated an extensive range of solar pumps and flow now extends from 150LPH to 3000LPH. Also available are solar filters to protect solar pumps from blocking and now there is a solar UVC for the first time. If you throw in battery back-up and mains adapters it is now possible to have a completely solar powered pond!

Pond Pump Running Costs

Your pump is the heartbeat of your pond and it is this element that is the most powerful and expensive to run.

Fortunately we have already been working hard over the years on sourcing pumps with low wattage 'eco' motors.

We have been also focussing and expanding our range of solar pumps that have the benefit of zero running costs.

Variable Flow Pumps

The most sophisticated variable flow pumps can have their power turned up or down as required. This provides a number of benefits.

For instance a waterfall could be increased in force during summer months or to impress visitors whilst the same waterfall could be reduced to a trickle at night-time to reduce noise levels. Similarly a pump could be turned high in the summer (water oxygen levels low) and low in the winter. Turning the power down saves on energy considerably.

Filter Pumps

MightyMite

Not sure how these new pumps from PondXpert got their name - it could be the mighty power they generate from their compact size or it could be the mighty savings you make by choosing this pump! Perfect for smaller ponds (up to 6000 litres - 1320 gallons). Pumps can handle 4mm solids and include 10m power cable, a multi-stage hosetail and a 3 year guarantee

3yr Guarantee

Perfect 'Starter' Pump. Solids-handling with energy-efficient motor.

Model	Max Flow LPH	Flow @ 1m	Watts	Hose	RRP	OUR PRICE
MightyMite 1000	1000	300	20	12-25	£69.99	£34.99
MightyMite 1500	1500	850	25	20-32	£89.99	£44.99
MightyMite 2000	2000	1100	35	20-32	£99.99	£49.99
MightyMite 2500	2500	1700	45	20-32	£109.99	£54.99
MightyMite 3000	3000	2100	55	20-32	£129.99	£64.99

Simple 'tools free' access to pump inside strainer cage. Makes cleaning any blockages simple.

Three hosetails included in scope of delivery. Additional convenience as no need to cut a multistage hosetail down to maximise flow.

Perfect pump for powering pond filters and/or small waterfalls.

- ✓ **Proven reliability** - pump now ships with a 3 year guarantee
- ✓ **'1500' pump expands model range to five** - enables you to make a more refined choice to suit your needs

Filter Pumps

Hozelock Aquaforce

One of our bestselling pumps from a trusted UK brand

The Aquaforce is a reliable solids-handling pump that will work 24/7. There is a choice for every pond size and larger models (6000+) come complete with a second inlet that can be attached to a skimmer or satellite strainer cage.

- Highly economical 'eco' motor.
- Unique Wildlife Protection System: Intake holes can be reduced to 2mm to prevent tadpoles, newts and small fish getting into the cage.
- Smaller pumps (1000-4000) can handle solids up to 6mm
- Larger pumps (6000-15000) can handle solids up to 10mm
- 3 Year Guarantee

Bestseller

Aquaforce Satellite Strainer Cage

Pulls dirty water from a secondary area of the pond to avoid stagnant spots - attaches to 2nd inlet on models 6000 up.

Pond hose & clips

Filter Pumps

"Pump works great with good flow rate. Cage is very easy to open (Probably best on market) with very easy clips for maintenance purposes. Spot on!"

Customer Feefo Review July 2017

PondXpert UltraFlow

At last we have found a pump that **'ticks all the boxes'**. Consider the following features:

- Ultra-low running costs.
- 'Auto-Off' function if water level drops too low.
- Choice of 10 models enables user to make a refined choice.
- Alternative inlet feature (blanked off on initial set-up).
- Alternative inlet can be attached to a skimmer or satellite strainer if required.
- Set includes 2 multi-stage hosedails (25/32/38/40mm).
- Can be run submersed or 'dry' (ie, suitable for pondkeepers running a gravity-fed system).
- Designed to run 24/7, 365 days per year (handles 6mm solid particles).
- Tool-free access to pump inside filter cage (easy to access and clear out any blockages).
- Three year guarantee
- Carry handle (very useful when lifting pump out of pond)

All pumps accept hose 25 / 32 / 38 / 40mm and come complete with 10m outdoor power cable

Model	Max Flow LPH	Flow @ 1m	Max Pumping Height	Watts	RRP	OUR PRICE
UltraFlow 3000	3000	1600	2.0m	10	£179.99	£89.99
UltraFlow 3600	3600	2400	2.8m	20	£199.99	£99.99

Eco 70% Power Saving

Fibbert Frog's Top Tip

Check your current pump power ratings. An old pump may have a high wattage and these are expensive to run. For instance a 'typical' 5yr old 8000lph pump could be 140w. The UltraFlow is just 70w. Running 24/7 the UltraFlow could save you £208 per year off your electricity bill*.

Pump Dimensions:

LWH: 25 x 18 x 11.5cm

Relatively compact - suits any size of pond

* Electricity costs vary - please check with your current supplier.

Filter Pumps - Variable Flow

Outlet: 20/25/32/40mm

Blagdon Amphibious IQ

This new pump from Blagdon is powered by the latest digital motor technology. Now you can see exactly how much power your pump is using and choose to turn the power up or down. This means you can lower the flow at nighttime (eg, to reduce noise from a waterfall disrupting neighbours) or increase the flow - eg, during hot weather when the pond needs more oxygen. The digital motor requires minimal power to run so you save on energy costs too!

Model	Max Rate	Power Use	Max Height	RRP	OUR PRICE

Pond Filtration

How it works

Your pond pump is designed to suck up dirty pond water and push it to a waterfall and/or filter. Filtration is the process by which your pond is cleaned of impurities. Once the water reaches the filter it usually passes through three key stages:

1 UVC Radiation

If your filter has a built-in UV unit this exposes the water to UVC rays which cause microscopic single cell algae to flocculate (that is to stick together to form larger pieces). This action causes this suspended algae to die and fall to the bottom of the pond. This clears the water and the solid particles are sucked up by the pond pump.

2 Mechanical Filtration

Dirt such as fish waste and algae particles generated by UVC radiation are caught in physical mechanical barriers. Foams are a typical example - often with multiple grades to catch even the smallest pieces.

3 Biological Filtration

Dirt-free water then passes through a bed of bio-media. This material will often have a multi-surface appearance for healthy bacteria to stick to and thrive. Such bacteria break down ammonia into Nitrite. Nitrite is broken down into nitrate.

Main types of pond filters available:

Flow-through Filters (pages 58-59)

The traditional 'Box' filter sits pondside or at the top of a waterfall. Pond water is pushed into one end and returns via gravity from the other. These filters are generally larger and provide a massive area of filtration media to cope with larger ponds.

Underwater/Solar Filter - see opposite

Pressure Filters (pages 60-65)

A more modern approach is to house the filter media into an airtight cannister. The water enters the filter under pressure and leaves it under pressure allowing the filter to be hidden. Great for smaller ponds - these filters provide maximum landscaping opportunities.

Pond Filtration - Solar Filter

PondXpert EcoFilter

Unique new concept

Entry-level compact submersible pond filter designed to be positioned UNDER the water surface. Perfect for keeping small ponds up to 4000 litres clear and healthy.

- Specifically designed to partner up with Solar Pumps
- Solar Pumps tend to be lightweight and fragile - the filter foams grip the fountain stem keeping it upright and also stop solid particles blocking the impellor
- Using a Solar Pump allows "Wireless Ponds" to be created. Customers can create a garden pond with no need for outdoor electric
- Filter can also be used with fountain pumps - foams prevent solid particles causing foam blockage
- Perfect budget solution for small/preformed ponds.

EcoFilter 4000 Filter Contents

- 1 x Plastic Box Filter with handle
- 3 x Foam Pieces
- 2 x Fine Filter Nets

Additional item required not included

A small amount of ballast is needed to ensure EcoFilter stays sunken beneath the waterline.

Pond Gravel 2kg £4.99 (pg 110)

Zeolite Stone £16.99

can be used and benefits pond by extracting ammonia.

PondXpert Filtobox Sets

Dirty water enters the filter through the multi-stage hose inlet. The water fills the entry chamber, then spills into intermediate section before passing through the final chamber. Each chamber/zone contains filter foam and bio media. Once installed you may choose to try different grades of media in the different sections. **Note** - pump in photo differs from that supplied in Set

Complete Filter Systems - everything you need
Filter Pump, Pond Hose, Clips, UVC Filter.

25mm hose (x5m) and clips (pair) included in all sets

Pressurised Filters

PondXpert EasyFilter

These new filters are a joy to use - simply rock the switch to the 'clean' position to backflush the filter of accumulated dirt via the special waste outlet. This dirty water can be directed to your drain or flowerbeds.

- Easy clean feature
- In-built UVC for clear water
- Gradiated foams for mechanical filtration.
- Biomeida for biological filtration.
- 30,000 was a bestseller last year now range extended to suit all sizes of garden pond.

So easy to clean . . . 'Rocker' handle switches from 'clean' to 'waste'.

Three inlet/outlets as found on more expensive filters. 20-40mm Inlet, Outlet & Waste (12-25mm 4500)

EasyFilter 20,000+

Introduced in 2010 these large pressure filters proved their reliability and were a real hit with our customers. Their large capacity mean that pondkeeper's with bigger ponds can now enjoy the benefits of pressurised filtration. The bigger filters come complete with increased features but still at a highly competitive price.

Tilt & pivot handle to adjust flow to 'waste'

Easy Change UVC (20,000 & 30,000)

Filter can be buried up to lid as shown

HOZELOCK Bioforce Revolution

Hozelock Bioforce was the original pressure filter. In 2015 the Bioforce Revolution launched. This revamped design completely re-engineered pond filters for the 21st Century - and our customers love it!

This clever product features **the best 'EasyClean' feature we have ever seen**. The secret to the success of this filter is its use of micro block foam filter media rather than the usual 'rings' or 'blocks'. This means the foams shed dirt and debris far more effectively.

- Powerful UVCs prevent green water
- Efficient Biological Filtration (Kaldness K3 media in bottom chamber)
- Diverter valve switches dirty unwanted water to waste outlet
- Hose Inlets 25-40mm.

Dimensions: 6000: 27 x 27 x 37cm (LWH), 9000: 27 x 27 x 46cm (LWH), 14000: 40 x 40 x 51cm (LWH),

The perfect filter upgrade
The Recommended pressure filter for koi/mixed fisheries.

Just look at our test results . . .

Fig. 1

Fig. 2

Fig. 3

We were astonished (and embarrassed!) by the amount of dirt the filter picked up. **Fig. 1** shows the discharge with **Fig. 2** showing the dirt continuing to flow. By **Fig. 3** we were ready to switch the water back to the pond. After completing this very easy cleaning regime a few times in a fortnight the positive results were clearly visible.

pondXpert

SpinClean Auto Filters

Procedure when it's time to clean:

- 1) Switch Off Pump.
- 2) Turn blue dial so arrow is facing waste outlet.
- 3) UV light turns colour red and the motor turns the cleaning paddle against the sponges.
- 4) After 3 minutes cleaning a beep indicates cleaning is finished.
- 5) Switch pump on to wash dirt away to waste.

Procedure Update - Users report that pump doesn't have to be turned off during cleaning. Turn blue dial on/off to clean!

Fish Mate Pressurised Filters - PowerClenz

Fish mate pressure filters have a strong following in the pondkeeping fraternity. The filters have been sold by us successfully for many years and continue to be a great choice. As well as the usual features such as built-in UV and long guarantee they exclusively boast patented **POWERCLENZ** cleaning technology. When Powerclenz cleaning is utilised this 'reverse thrusts' your pump power and the pressure compresses the filter sponges by as much as 100lb per square inch.

Hey presto - your filter sponges are cleaned by the flick of a switch!

Green colour and slimline lid mean the Powerclenz is inconspicuous when buried.

Pressurised Filters

Laguna Pressure-Flo Filter & Clear-Flo Kits

These top performing pressure filters are worth a look - especially with their large UV power and unique cleaning system. When it is time to clean the filter you can utilise the unique Backwash Cleaning System where internal paddles scrape the filter foams clear of debris simply by the user pumping the handles.

- Mechanical filtration foam
- Biospheres bio-media (not 2500)
- High power UVC
- Simple backwash cleaning
- 3 year guarantee

Improved Models for 2023 - Bigger UVC

- Addition of 'Bio Rock' for healthier water
- Improved foams.
- Better cleaning brush handles and diverter valve (now bright yellow).

Koi Filters

Evolution Aqua EazyPod

Evolution Aqua produce the most modern pond filters on the market today. The Eazypod has been designed with small koi ponds in mind (10,000 litres - 2200 gallons) but it's superior design can also be employed on ornamental/goldfish ponds. In this less demanding environment the Eazypod can handle up to 20,000 Litres (4400 gallons)

How it works . . . Regular Running

Dirty water enters filter and is drawn to the centre of the pod. Water passes through special Kaldness filter media which traps the dirt. Dirt gets stuck in the filter media - clean water returns to pond.

How it works . . . Cleaning

Switch off pond pump. Switch on air pump to agitate the filter media. Filter media bubbles up and dirt is dislodged. Run dirt to waste - Switch pump back on.

23inches (58cm) tall and wide

Nexus 220 & 320 Koi Filters

For larger koi ponds the Nexus Eazy 220 and 320 are proving highly popular with our customers. The concept of the vortex shape with the Eazypod is repeated but the air pump also supplies an outer chamber. This 'floating bed' is full of media and is rich in healthy bacteria to convert Ammonia and Nitrite into harmless Nitrate. The 220 can be used with koi ponds up to 18000 Ltrs (4000 gallons), the larger 320 up to 34000 Ltrs (7500 Gallons)

Pro 50	50000	55W	35L	£1699.99	£849.99	Pro 50 Set	UltraFlow 16k	£919.99	£129.99
Pro 75	75000	60W	70L	£2299.99	£1149.99	Pro75 Set	UltraFlow 20k	£1249.99	£129.99

Both filters accept hose sized 25/40/50mm. 'One Touch' motorised cleaning is activated by twisting blue Control Dial on lid of unit. Chamber capacity of new 75 model is a massive 300 ltrs and pallet delivery is included.

Hand crafted extra large fibreglass chamber (volume 170 Ltrs). 226% bigger than the 40000.

Cut-away image shows internal foams and Floating Bed. Floating Bed creates a home for healthy bacteria.

Solid particles from dirty water attach to foams. Water flow then forces biomedia to tumble around the extensive outer skin area.

PondXpert MultiChamber Pond Filters

Professional multi-bay filters at a highly reasonable price. There is a good range of sizes with a solution to most pond requirements. Each filter box/bay comes complete with graduated foams, filter mat and biomed. The foams sit in cassettes and are very easy to remove - simply push the sponges against the grips for easy cleaning.

"GreenStop Pro" UVC Upgrade

Enhanced UVC Unit which fits neatly onto the rear of all models as shown (attached to MultiChamber 18000).

- 2 x Inlet Hosetails 20-40mm
- Temperature Dial in lid
- 2 x Outlet pipes. One 70mm and one stepped fits 40/50mm
- Foams, Japanese matting and biomed included

Dimensions (LxWxH) 9000 - 535 x 465 x 405
18000 - 900 x 540 x 405 36000 - 1335 x 540 x 405

Koi Filters

NEW

Polishing Filter for removing fine particles

Professional multi-bay filters at a highly reasonable price. There is a good range of sizes with a solution to most pond requirements. Each filter box/bay comes complete with graduated foams, filter mat and biomed. The foams sit in cassettes and are very easy to remove - simply push the sponges against the grips for easy cleaning.

Evolution Aqua Tempest Pond Filter

Use this innovative filter for crystal clear pond water.

Easy to install this new filter has a unique air syphon design to simplify cleaning. The filter contains hi-tech K+ Media that are agitated and cleaned by air that is drawn into the filter as it empties.

Particles down to 1 micron in size can be filtered out by the K+ media. Water is pumped into the filter from the pond and the floating K+ rises to the top of the filter body, forming a mechanical barrier to trap the debris in the water.

The waste stays there until the cleaning cycle disturbs it and it is flushed away.

Cleaning is easy, turn off the pump and open the waste valve. Air is drawn into the filter, causing turbulence in the water to dislodge any trapped waste. The dirty water then exits the filter leaving only the cleaned media behind.

It is important that the filter is installed upright for it to work. Multiple Tempest filters can be installed in parallel on larger ponds, they can be used as the sole filter or alongside another filter to improve clarity.

- Easy to install and clean
- Uses 7 litres of K+ Media (supplied)
- Filters down to 1 micron
- 2 Year Guarantee

RRP £274.95 **Our Price £274.95**

Max Pond Size Lts	Inlet Pressure Pipe*	Outlet Pressure Pipe*	Drain/Waste size	Max Flow Rate	Optimum Flow Rate	Dimensions (cm)
5000	1½" (50mm)	1½" (50mm)	1"(32mm)	7500lph	5000lph	110 x 35 x 20

*To install using flexible hose instead of pressure pipe you'll need to fit a reducing sleeve (EA35050) and a 1½" solvent stepped hosetail (EAHOSE15) inside each slide valve.

Pond Cleaning Tools

These nets are strong enough to fish a pump out of the water

PondXpert VariNet HD - Interchangeable Head Hand Net System

Extra Strong Nets - Ideal for handling big jobs around the pond

Super strong pond net with hyper-extension telescopic pole. This professional net system has a choice of heads. Max reach 3m (10') Rubberised finish and scrape bar protection on netting for long life Pole is lightweight (yet incredibly strong) - so more comfortable in use.

Image shows standard VariNet pole vs VariNet HD pole. The difference in girth is easily evident plus the HD poles come with a foam grip half way down the shaft for better grip.

Alongside the original 3m length telescopic pole there are new fixed length 1m and 0.4m poles.

3m Pole + Head Save £9.99

PondXpert Telescopic Pond Silt Remover

Hand Operated

A simple, easy to use hand operated pump device for removing silt from the bottom of the pond.

Every pond accumulates a layer of silt and debris in the bottom of their pond no matter how hard you try to keep it clear. This can lead to problems with water clarity, pollution of the water etc and therefore should be removed frequently.

This silt vac is the ideal solution - lightweight and not powered by electricity, it can be taken to the pond, used to hand pump out the silt and stored ready for next use.

Every pond keeper should have one!

Features:

- Easy to use
- Telescopic - extends to 2 metres (6' 7")
- Also removes floating debris
- Complete with strainer bag
- Simple 'bicycle pump' action

Fibbert Frog's Top Tip

Quartz Sleeves can be cleaned using distilled (white) vinegar.

Simply cover quartz with kitchen roll, drench in vinegar then leave for 2 hours or so depending on quartz condition.

Pond Ultraviolet Clarifiers (UVCs)

Ultra Violet Clarifier

What is an Ultra Violet Clarifier?

A UVC consists of a chamber holding an electrical lamp behind quartz glass. Water is pumped through this chamber to prevent pond water turning green.

How Does It Work?

Pond water is subjected to high levels of U.V light. This U.V. light causes the microscopic single cell algae to be clumped together allowing them to be collected and broken down by the biological filter.

Before UVC

Typical "pea soup" colour.

After UVC

Clear water lets you see what is happening below the waterline.

Don't miss **NEW Solar Powered UV** on pg 46

Air Pumps

Adding oxygen to a fishpond is very important to fish health. This is particularly true in summer months and if the pond is heavily stocked. But even in ponds without fish an air pump will help keep the water fresh - particularly if a waterfall or fountain is not present.

What Size of Pump for my pond?

We have included a table (right) as a buying guide. Many pondkeepers do not keep fish in the pond and here addition of a smaller air pump will be sufficient. Fish ponds require a larger amount of air, koi ponds especially. If keeping other 'oxygen hungry' species such as sturgeon then the flow suggested above should be amplified further. Indeed please treat this as advice as a guide only - every pond is different. Remember oxygen can be gained from pond plants, fountains and waterfalls too!

NOTE: Remember the higher the water temperature the less dissolved oxygen the water can hold.

Air Pump Sizing Guide			
Air LPH	Pond Volume (Litres)		
Output	No Fish	Fish	Koi
210	1500	1100	500
450	3000	2500	1200

Great space saver!

Pond Deterrents

Isn't it time to scare away those pesky herons for good?

Velda Laser Guard

Hérons are one of the hardest creatures to scare away but Velda of Holland are determined to find the answer!

The latest motion-activated deterrent utilises laser lighting, strobe effect and three different degrees of sound.

Our Price £199.99

Velda Bird Blocker Band

Reflective ribbon with ground pegs to scare away birds.

Our Price £14.99

Pond Protector - Harmless electric fence

Efficient method to keep herons and cats away from a pond. The transformer gives off a low voltage electric pulse to the fence round the pond. This shocks herons or cats and persuades them to try elsewhere. Inclusive of transformer, 10 synthetic rods, 80m of electric fence, connectors and instructions. The electric cable has a length of 80m, which is sufficient to protect 40 metres of pond side with two cables. Extension set provides an additional 40m coverage.

Pond Electric Fence Was £99.99 **Now £69.99**

Pond Electric Fence Extension Set £39.99

Protector + Extension £89.99 **SAVE £19.99**

Floating Pyramid

Floats on pond surface with reflective surface scaring off herons.

Our Price £12.99

Jet Spray Protector

Attach device to your garden hose and water will spray when movement detected.

Our Price £39.99

Velda Spinner

Spinning scarer moves in the wind.

RRP £38.99 **Our Price £29.99**

Velda Reflector

Floating mirrored sphere scarer.

RRP £26.99 **Our Price £19.99**

Replica Heron

Hérons are territorial creatures so usually avoid each other. Place this realistic replica near your pond and it should help to stop the real thing.

RRP £49.99

Our Price £24.99

Effective Floating Heron Deterrent

Here at pondkeeper herons often attack our ponds. We didn't like the spoiling effect netting created on the pond but these new Pond Protectors solved the problem in an attractive way. The protectors are supplied as floating grids that you join together and lay across exposed areas of pond perimeter. The heron can neither stand on them or poke its beak through them. *Problem gone!*

Netfloats

"New Improved Version - Anti-Algae Coating"

Made in the UK these are the original design. Finished in black they are available in two designs. The 'rings' are best for smaller ponds - the rectangular grids make installation in larger ponds easier.

Pond Treatments - Water Problem Solvers

In-Line Dechlorinators

As most fish-keepers know tap water is great for us humans but not so good for the fish we look after. Tap water contains chlorine and other impurities that are hazardous to fish.

It is therefore essential that these elements are removed from tap water before it is used to 'top-up' or fill a pond. An inline dechlorinator saves playing around with messy liquid treatments or waiting for chlorine to 'gas-off'.

Simply running tap water through one of these units ensures your water is pond-safe straight from the tap and one unit will be enough to decontaminate 200,000 litres of water - an amount that will take a typical Pondkeeper 2 years to get through.

Evolution Aqua Detox Dechlorinator

Hi-grade activated carbon removes chlorine, chloramine, bromine, malachite green, dyes, colours, humic acids, organics, proteins, antibiotics, hormones and ozone.

Improved in 2017 with high capacity carbon for optimum chlorine removal. Recommended flow rate: 4 litres per min.

The 12 inch high-grade activated carbon filter will treat up to 225,000 Litres / 49,493 U.K. Gallons.

The 30 inch high-grade activated carbon filter will treat up to 550,000 Litres / 122,083 U.K. Gallons. Maximum treatable water is based on incoming 0.5ppm chlorine.

12" Detox Dechlorinator In Line Filter **Our Price £84.95**

30" Detox Dechlorinator In Line Filter **Our Price £124.95**

PondXpert 10" In-Line Dechlorinator

New advanced dechlorination from PondXpert. This unit is packed with superior materials meaning increased capacity can be achieved from a unit with a smaller footprint. Contains a blend of Hi Grade carbon and Ceramet active ceramics. Ceramet ceramics are porous and have an extremely large surface area (500 times that of carbon) and have been used in Japan for many years to keep Koi ponds clear and the fish free of disease. Premium 'Hi Grade' carbon is used as a drinking water treatment illustrating its trusted quality and effectiveness. Cartridge will treat up to 150,000 litres. Max recommended flow rate 9 litres per minute (the slower the flow rate - the more impurities are removed).

RRP £139.99 **Our Price £69.99**

Pond Treatments - Water Problem Solvers

Slimy Algae/Greenwater

Goodbye Greenwater

Simple water soluble sachets especially effective against slimy algae and greenwater.

8 wk treatment for 4500l **£14.99**

Tetra AlgaRem

Fast and environmentally friendly treatment for combating green water.

1ltr (22,730l) RRP £29.99 **£25.99**

PondXpert Particle Blaster (236ml)

Clears dead or suspended particles. Ideal for clearing dead blanketweed following Eliminator treatment.

Treats 2500 gallons (11,170 litres).

Our price **£14.99**

Dead Particles on pond floor

After Treatment

New Ponds: Any new pond build should be left unstocked until at least six weeks have elapsed in order to allow the pond's natural eco-balance to level. Beneficial 'friendly' bacteria will build up and breakdown any harmful toxins. A simple test kit will allow you to take water samples to measure ph (6-8 is ideal, 7 perfect), ammonia, and nitrate.

Water Testing Equipment

Tetra 6in1 Handy Test Pack

Test for Chlorine, pH, Carbonate, Hardness, Nitrite & Nitrate.

Handy pack of 25 tests.

RRP £13.65 **Our Price Only £11.99**

Blagdon Dip Test Kit

Quick & easy strip tests. Contains tests for ammonia, nitrite, nitrate, pH and water hardness. 60 tests.

RRP £16.69 **Our Price £13.49**

NEW

PondXpert Test 6in1

Test for Chlorine, pH, Carbonate, Hardness, Nitrite and Nitrate. Super value pack of 6 tests.

RRP £9.99 **Our Price Only £4.99**

Water Conditioners: Tap water is toxic to fish as it contains chlorine and other chemicals. This should be neutralised with a treatment. Alternatively collected rainwater can be used. Bacterial boosters add friendly bacteria to the pond quickly - speeding up maturation

Blagdon Fresh Start

Removes chlorine.

250ml RRP £13.99 **£11.99**

500ml RRP £21.99 **£18.49**

1litre RRP £29.99 **£25.99**

Blagdon Bio Start

Contains bio-cultures that balance pond. 4 sachets.

treats 9000lts **£15.99**

Goodbye New Pond Problems

Contains bio-cultures. 2 soluble sachets

treats 9000lts **£7.99**

PondXpert Tap Tonic

Treatment removes chlorine, chloramine and detoxifies any heavy metals that are present in tap water. Also neutralises any ammonia traces evident. Essential for new ponds or when making a water change.

Also contains a slime coat protectant to the water to help heal any wounds your fish have endured. This also protects your fish in times of stress: fish can find water changes and clean-outs stressful.

472ml bottle can be used to successfully treat 12,112 litres of pond water.

RRP £19.99 **Our price £14.99**

Tetra Pond AquaSafe

Makes tap water safe by removing chlorine, chloramine and detoxifying any heavy metals that are present.

250ml RRP £10.29 **£9.99**

500ml RRP £17.12 **£15.99**

1litre RRP £28.61 **£24.99**

Pond Treatments - BlanketWeed Cures

BlanketWeed is a long string algae that thrives in healthy ornamental ponds. Its growth is increased by bright sunlight and shallow fast running water so it will be found in water-falls and unshaded pond areas. Overstocked fish ponds can also contribute.

The simplest 'natural' treatment is to stock the pond with plants and animals that actively consume blanket weed or compete for the same food. Other highly successful methods include the careful use of copper ions, barley straw and pond vacuums.

Barley Straw - The Traditional method used since the middle ages

Safe to use.
Not affected by recent HSE recall

PondXpert Barley Straw Essence

Effectively clears blanketweed and green water.

1000ml treats 22750Lts (5000 gal).

250ml £8.99
1Litre £19.99

60% Extra Fill

PondXpert 'Throw 'n Go' Barley Balls

Biodegradable gel spheres packed with barley straw extract. Simply drop one ball per week into pond (each ball treats 5000l).

Barley Balls £14.99

Blagdon Barley Straw Bugs

Works like barley straw without the unsightly bales.

250ml RRP £17.99 £15.99
500ml RRP £32.49 £27.49
1ltr RRP £59.49 £49.49

3 for 2 Pack

PondXpert Twin Pack

The traditional method against blanket weed and algae. Float the net of barley straw just below the surface. Each bale treats 2250 Ltrs.

Twin Pack £9.99

Barley Straw Midi Bale

Larger bales for big ponds. Each log treats 13,500 Litres (3000 gallons) for 8 weeks

Midi bale RRP £29.99
Our Price £14.99

PondXpert Barley Flakes

Unlike traditional barley straw which sits on the pond surface these 'Flake' pouches are designed to sink to the pond bottom.

RRP £14.99
Our Price £7.49

Tetra AlgaFin

Effective and safe treatment for persistent blanketweed and other pond algae.

250ml (5,000) RRP £10.29 £9.99
500ml (10,000) RRP £17.12 £15.99

Safe to use. Not affected by recent HSE recall

Pond Salt

Improves fish health and improves natural eco-balance.

500g treats 2250 litres
1kg treats 4500 litres
500g **£8.99**
1kg **£14.99**

Fish Food

Fibbert Frog's Top Tip

Only feed once a day at season end/start (5-8°C). In summer (10°C) can feed 2-3 times. Remove any uneaten food after 5 minutes.

In established pools, where there is a good balance of plants, wildlife and fish there will be plenty of natural food for your fish to feed on.

However, pond food acts as a supplement to the fishes' diet and is enjoyable for the pondkeeper.

Often ponds will be more heavily stocked and there may not be enough plant life to attract insects.

Here feeding is vital to the health of the fish. High protein foods should be fed in the summer with only low protein (eg, wheatgerm) fed in the winter.

Tetra Floating Sticks

A complete staple food for all fish. The UK's bestselling pond food.

780g	£16.99
1.2kg (10ltr bucket)	£21.99

Pond Feeding Equipment

Hozelock Automatic Fish Feeder

Indispensable for holiday feeding, the Automatic Fish Feeder can be mounted on a pond wall or on the supplied stand. Operate via a single control incorporating a battery-operated clock and a frequency dial which gives a choice of up to six feeds per day. The food chamber holds up to 800ml (approx. 100g) of fish food.

RRP £184.99 **Our Price £129.99**

Fishmate Fish Feeder

Automatic fish feeder for up to 21 days. Reliable and accurate timer AA battery included.

RRP £59.90 **Our Price £49.99**

Fish Mate P7000 Pond Fish Feeder

FISH MATE

Suited to larger ponds for use with pellet or 'stick' food. Variable feed sizes are dispensed at programmed times or on demand at the touch of a button.

- 7 Litres/ 6.5lbs / 30 cup capacity dry food hopper.
- Easy to use LCD control with approximately 6 to 9 months battery life in continuous use.
- Unique feed mechanism ensures accurate and consistent feed sizes from teaspoons upwards.
- Weather-resistant
- Can be fastened to a secure base for increased stability.
- Suitable for most popular food sticks and pellets

Fishmate P7000 feeder RRP £115.23 **Our Price £84.99**

PondXpert Thermometer

Knowing the correct water temperature of your pond water is vital when to feed and add treatments. This floating thermometer gives you the information you need.

RRP £15.99 **Our Price £7.99**

Laguna FlyMix Food

Insect based pond Food contains sustainably sourced black soldier fly larvae, combined with salmon, shrimp and other ingredients.

750g **Our Price £17.99**

Pond Feeding Equipment

PondXpert FoodFlinger Pond Fish Feeder

Feeds your fish when you are not available. New Auto-Feeder with solar power. Very easy to use with full control via LCD control panel. Clever anti-clog design means regular, reliable feeding.

RRP £239.99 Was £149.99 **Our Price £99.99**

Super Features

- Rechargeable batteries powered by solar
- 6 Litre capacity accepting pellet & stick food
- Control size of feed (0 to 20 seconds)
- Control number of daily feeds (1-6)
- Control 'scatter power' (60-100%) distance

Accepts pellet & stick style food 3-10mm.

Includes 4 stake feet for optional additional stability.

(A) PondXpert FoodFlinger offers powered propulsion. Food can be propelled a controllable distance (3ft to 10ft) at wider arc of 160 degrees.

- Allows multiple siting opportunities
- Fair distribution of food enabling all fish to feed

(B) Traditional 'auto-feeders' can be troublesome to position pond-side. The food drops down vertically from a chute into the water. Greedy fish can monopolise meals.

FoodFlinger Mains Adaptor

FoodFlinger powers its rechargeable batteries (supplied) via an integrated solar power. One charge lasts up to 3 months but an optional Mains Charger is available.

RRP £19.99 **Our Price £9.99**

Pond Side Creatures

Floating Ducklings (triple)

Set of 3 cute ducklings to complete the duck family.

1 Ducklings RRP 19.99 **£9.99**

Dimensions: LWH cm 11 x 6 x 6

Product Description

Attractive pond lights suitable for use above or below water. These lights are easy to position thanks to weighted tripod stands and ground stakes (included)

Each powers a 20w halogen bulb and comes complete with transformer and four coloured discs.

2m Cable from plug to weatherproof transformer, then 5m to first Light, then 2m to Subsequent Lights.

Pond Plants

Water gardens give the keen horticulturist an opportunity to grow a number of aquatic-friendly species.

Introducing plants to your pond is beneficial for optimising 'pond balance'.

Live Pond Plants

We are delighted to be able to offer you a top selection of plants from the UK's best aquatic nursery. Our customers love our Variety Packs of Six 9cm plants - Your Pack of 6 will be made from a selection of 13 plants. These will be chosen by the nursery pickers based on availability and quality of the plants at time of despatch (ie, what is in-season).

Ornamental Marginal Variety Pack

Marginal Plants grow well in wet or water logged soil near the water garden's edge or in shallow water.

Our Price £49.99

Oxygenator Plants Variety Pack

Submerged beneath the water's surface, these plants release oxygen into the water (essential for a healthy pond).

Our Price £49.99

Wildlife Marginal Variety Pack

Great Pollinators as well as being British Natives. Will attract a wide variety of pollinating insects and other wildlife.

Our Price £49.99

Water Lilies (1 Ltr pot)

Spectacular flowering plant.

Red Lily £24.99

White Lily £24.99

Yellow Lily £24.99

Pond Plants

As well as looking beautiful aquatic plants play an important part in keeping your pond balanced. Plants absorb nutrients, reduce light levels in the water and produce oxygen. Plants also provide shelter for fish and natural material on which they might spawn.

Planting Baskets

Aquatic planting baskets have been designed with mesh to help retain the soil. A fabric liner can be used to reduce any soil leaching.

How to choose a planting basket size.

Submersed Plants: 10cm wide or kidney shape and larger.

Bog Plants: 18-23cm wide for small bog plants, 28-36cm wide for large bog plants like Iris. Kidney shape baskets are also great for arrangements of 3-4 young bog plants.

Water Lilies: 20-25cm wide work for Dwarf lilies, but for regular lilies we recommend the XL 40cm size.

Filbert Frog's Top Tip

Did you know a 10 litre bag of soil will fill 1 x kidney basket? In order to help you decide how much soil you need we have added a 'capacity' column next to our planting baskets. Hope this helps!

Planting Bag

Easy to use, more flexible than baskets, fit in small areas.

3 for 2

PLANTING BAGS		
Type (L x W x D) cm	Triple	Single

EasyClear 9000 (3) £24.99

Pond Hose & Clips

As your pond water makes its journey from your pump to its destination - via a UVC, filter or waterfall - it needs to be constrained by a network of hose. This hose should be fixed securely to the equipment using clips - this helps prevent any chance of the hose becoming loose or leaks affecting performance. As with most things items fail due to the weakest link, that is why we only use premium hose and accessories.

PVC Pond Hose

Features:

- Smooth bore-minimal flow restriction
- Will not kink or split
- Convenient 5m lengths will suit most ponds

Clips

Features:

- Zinc plated, will not corrode
- Easy to tighten

Filbert Frog's Top Tip

Use the largest size of hose available for the equipment involved - this results in less frictional loss resulting in optimal performance.

Order Information

Delivery

Delivery is direct to your door from our warehouse and we aim to despatch all orders placed before 1pm on the evening of the same day. Your order will be despatched on a 24hr service and be with you the next day (anytime 8am-6pm). *A standard charge of £4.99 is made to contribute towards handling and despatch. This charge is for mainland UK only - the following areas please ring for quote first (Isle of Man, Wight & Scilly, Northern Ireland, Channel Isles plus Scottish Highland & Island postcodes (BT, AB31-38, AB40-56, HS, IV, KA27-28, KW, PA20-88, PH4-44, PH49-50, ZE).

Returns

If any item does not meet your expectations you may return it (unused) within 30 days of purchase. We will cover the cost of return for damaged or faulty goods. Please state whether you would like a refund or replacement when returning goods. Your statutory rights are not affected.

Warranties

Most of our products come with free extended manufacturer warranties. If you incur any problems during this warranty period please let us know and if the item can not be fixed we will offer a replacement no problem. Proof of purchase required

Mailing List

- ☐ Please remove me from your mailing list
- ☐ We may make our customer list available to carefully selected companies.
- Please tick if you do not want to receive such mailings
