Substitute 'Tench' Preform for 5x4m 40yr Flexiliner.

Same Price - **Bigger Saving!**

Bigger Pond Possible

### Just Dig a hole & add water (goldfish too if you like)

**NEW** submersible EcoFilters support the solar pump & prevent pumps clogging. Pump action draws in solid particles which get picked up by the filter foams. Solids-particle handling means solar pump can now act as a solids-handling pump making it suitable for keeping pond clean and safe for a low stock of fish. SolarShower Pump has a lithium battery so will run even if cloudy (mains charger included in case of prolonged periods without sun)
