EXCLUSIVE! Solar Pump with UV filter & Battery

For the first time small ponds can achieve clear healthy water without the need for mains electricity!

UVC PUMP FILTER

PondXpert Solar TripleAction 'all in one' pumps introduced the world's first solar pond UVC in 2023. Enabling small ponds to be clear of green water.

A bestselling item now available with up to 15% discount!

- Allows pond to be positioned remotely (mains power not required)
- Eco-friendly, zero running costs

Solar TripleAction 800 Was £149.99 **SALE PRICE £129.99**

Solar TripleAction 1600 Was £199.99 **SALE PRICE £169.99**

NEW **Solar TripleAction 1200 Hybrid** Solar energy/Mains power auto switch **£119.99**

See pg 45

800 & 1600 models have lithium battery. New 1200 Hybrid model designed to be connected to mains (no battery inc.), solar when sunny.

Welcome to your copy of our **Super Spring Catalogue.**

With a lot of uncertainty in the world today it's good to have a hobby that brings joy and peace of mind.

Pondkeeping is always its most rewarding at this time of year and we hope you will find a few interesting new ideas inside.

Director, Founder & Proud Pondkeeper
Stephen Armstrong

Your feedback is greatly appreciated. We now have over **5000 products** reviewed & rated on our website. This helps newcomers to the hobby to decide what to buy and lets us know what products to keep in our range. Also, your comments regarding your buying experience with us help us to maintain a high level of service.

Over 29,500 customer reviews now shared online. We recently received a Platinum Trusted Service 2024 award. Awarded for achieving Gold Trusted Service for the past three consecutive years.

Pond Building Guide - Preform Ponds

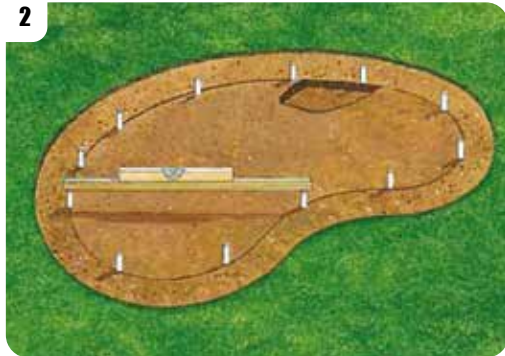

Filbert Frog's Top Tip

Pre-formed ponds must have good all-round support. Be sure to tamp and compress the sand or soil between the hole and sides of the pond.

1 Place the pond in position and carefully mark out its shape with stakes. Don't turn the pond upside down to mark out the shape, as this gives a mirror image of the pond and will not match up.

2 Position the pond right side up in the exact place you want it and use it as a guide or template while digging around the stakes. Make your outline 4-6 inches (10-15cm) larger than the pond itself. Verify the first level and start digging down to the shelves.

3 Reposition the pond, mark out the inner deeper section and continue digging out to the bottom. Be sure that the hole is slightly deeper than the actual depth of the preformed pond and verify that the pond is level. Remove any loose objects from the hole and add about 2" (5cm) of sand or fine soil to the base level and shelves.

4 Position the pre-formed pond into the excavation and verify it is level. Back-fill any spaces with sand or soil. Fill with water and leave to settle for at least a week before finishing off with your choice of edging.

Pond Tanks

Preformed Ponds - Buried Only

Preformed ponds are the easiest and quickest way to create a garden pond.

- Predetermined shape and depth
- No worries about creased material
- Ideal for poor soil conditions

PondXpert Preformed Ponds

A new range of durable ponds manufactured from high density polyethylene. Black colour finish and Lifetime Guarantee on all ponds. Models 2 and 3 have a smooth finish whereas the rest of the range are textured. (Note: dimensions include a 5cm Lip/overhang (11cm on 'Goldfish', 8cm on 'Koi').

**Textured ponds only*
Integral wildlife escape route and integral pump stand

Pond Fun Features

PondXpert ViewTube Fish Towers

Watch in wonder as your fish magically appear and swim above your pond surface.

Made out of clear acrylic the Tower stands 65cm high (40cm tube + 30cm stand) with a diameter of 20cm

Fish will be attracted by warmer water inside tube or food can be added as an incentive.

Designed for small/medium fish. Not suitable for mature koi.

RRP £139.99 Was £69.99 **Sale Price £49.99**

Installation Notes

Metal stand must be placed on a stable flat surface. You will need to get into your pond and completely submerge the tower underwater before using a 'tilt and lift' motion to position it on its stand with base of tower still under the water.

Alternatively if you have a pond vacuum this can be used to suck the air out of the dome and it will automatically fill with water.

PondXpert ViewTube Large

Wider tower allows big fish to enjoy the view!

50% larger diameter column (30cm vs 20cm).

RRP £199.99 Was £99.99 **Sale Price £79.99**

PondKeeper Pond Liner Build Project

We built our pond using an EasyPond 30,000 Complete Kit. We then finished the pond with PondXpert Stone Liner and underwater lights.

1 For a big pond like ours we recommend hiring a mini excavator. Hire by the day or weekend - great fun!

2 Finishing the dig by hand - digging out shelves and smoothing the surface. Get rid of as many stones as you can.

3 Due to the very stony nature of the ground we chose to upgrade to Fleece Underlay (Dog optional!)

4 Once the liner has been unfolded it's time to smooth it into the shelves and corners as best you can (barefoot is best).

5 Fill pond with water. We filled ours straight from the mains via a hosepipe.

6 Weigh liner edges down then smooth away folds as water starts to fill the pond.

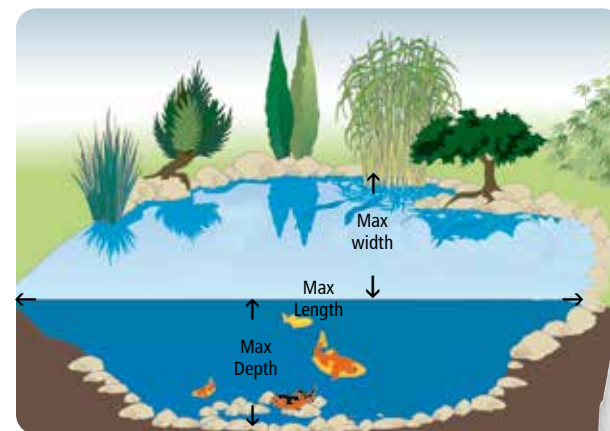

Pond Liners

All ponds start by digging a hole in the earth and then lining it before filling with water. A liner is essential as it creates a watertight barrier to stop the water seeping back into the earth.

We are a pond liner specialist and we want to guide you into making the correct choice.

Our 'ready reckoner' in the first column of our liner listings (22-23) shows the resulting pond that can be created by the many pre-cut sizes we have in stock.

With flexible liners the choice of pond shape and depth are up to you. If keeping fish we recommend at least part of the pond to be 1m deep for fish to overwinter.

Calculating your liner size

Length =
max. pond length + (depth x 2) + 1m overlap

Width =
max. pond width + (depth x 2) + 1m overlap

PondXpert EPDM Bonding Mastic 310ml

Use to bond rubber liners.

Our Price £14.99
Cartridge Gun £7.99
Mastic + Gun Set £19.99

Pond Liner Materials Stocked (Pre-cut next day service)

LDPE (Low Density Polyethylene)

Best for value. Hardwearing and tough yet light in weight

Pond Liners

Liners pre-cut & ready to go!

All successful pond projects start with a good waterproof pond liner. A pond liner provides a watertight membrane to stop pond water seeping away.

PVC Pond Liner

We have extended our range of 0.5mm and 0.3mm PVC liners this year. Thicker than LDPE but not tearproof. These are priced:

20yr guarantee **0.3mm £3.29/sqm** was £4.49 (£0.31 sq ft)
30yr guarantee **0.5mm £3.99/sqm** was £4.89 (£0.37 sq ft)

BIG offer Details opposite! Check out new 'seamless' option.

Butyl rubber

First choice for professionals for many years. Lifetime guarantee (20yrs on 0.75mm thick).

£12.49 **£11.49** per sqm (£1.07 sq ft)

EPDM rubber

Same physical characteristics as Butyl but with significant cost savings. Lifetime guarantee (20yrs on 140sqm plus), 0.75mm thick. We find that this synthetic rubber now outsells butyl.

Only **£9.49** per sqm (£0.88 sq ft)

Flexiliner LDPE

Our bestselling liner. Double-laminated with a reinforced core. Durable, tearproof yet light to work with. The perfect Garden pond liner.

Half-Price Underlay Offer Over 100 pre-cut sizes - See overleaf

From only **£1.99** per sqm (£0.18 sq ft)

Half Price Fleece Underlay on 30yr guarantee only

Half Price Fleece Underlay

Half Price Fleece Underlay

Half Price Fleece Underlay OR Half Price Basic Underlay

Underlay

We recommend that all pond liners are underlaid as extra protection for your liner. It helps to prevent root penetration and punctures from small stones/debris. Underlay supplied matches the sqm of our liners.

"Basic" is a budget underlay, providing a good level of protection. Particularly suitable for small ponds or where sand is used as a primary barrier.

Only **£1.80** per sqm (£0.17 sq foot)

"Pond Fleece" premium underlay is a heavy 200gsm needled felt. Recommended for all ponds - particularly larger liners or stoney ground.

Only **£2.80** per sqm (£0.26 sq foot)

Glue & Repair Tape/Kits

Heissner easyFIX Tape Waterproof tape. Available in black or clear colour. 10cm wide x 150cm length.

easyFIX Black Our Price £19.99

"Pebble" or "Stone-Faced" liner protects the exposed parts of the pond liner and makes the transition between pond and land seamless.

This special material is manufactured in the Netherlands and our unique direct relationship with the producer means we can sell it to you at an exclusive price.

With approximately 225 stone particles per square inch this is the best quality stone liner around.

You can find the same product under other brand names elsewhere at a much higher price. *Grab yourself a bargain!*

Filbert Frog's Top Tip

This stone liner can be used to create a beach area which is perfect for me and my pondlife buddies. It lets us get in and out of the water as we please.

Also obstructions such as pond hose and electrical cable can be hidden underneath the additional layer of cover - this makes our pool look a whole lot better!

A mix of grey granite colour & lighter stones

Narrow channel creates a fast flowing rapid. Rec. Flow 2000lph. Dimensions: 104 x 70 x 29 cm (LWH). Available in Rustic Slate or Grey Slate finish.

RRP £280.99
Our Price £229.99

Water Courses

Most ponds have a waterfall. They create a real focal point and the bubbling water helps to oxygenate the pond. Also you will find a natural bank of earth is created by the displaced soil after your pond dig. The following pages show the best preformed watercourses on the market today.

Sandstone Series

are made out of tough fibreglass but the surfaces are hand finished to resemble real stone. These falls can be used individually or joined together to create a longer stream. (Dimensions cm W x L x Pour)

- 2 Double Step** 55x90x38 RRP £165.99 **Our Price £129.99**

Fibert Frog's Top Tip

Genuine stone waterfalls look great but are incredibly difficult and heavy to work with. These realistic falls look the part and are far easier to install.

Water Courses

Rockways Rustic Slate Watercourse

This is the finest watercourse we have seen. Supplied in a rustic slate finish it looks incredibly realistic and would grace any water garden.

The course is modular so it can be run as a three piece structure (as shown) or changed to a two or four piece structure.

The top piece includes a 25-40mm hose inlet so the water feed can be disguised.

Overlapping 3 shelf feature as shown is approximately 1.7m x 1m x 0.8m LxWxH

Recommended flow rate 2400lph

RRP £590.99 **Our Price £449.99 Save £59.98**

1 Top with Inlet

Pond Waterfall Spillways

An essential aspect of any pond is the way the pumped flow of water returns into the pond. A Spillway is a great solution. They create a spectacular 'sheet' of water into your pond. Can be used to feed water into the top of a bigger waterfall (more natural effect than a tight flow created by hose outlet alone) or as a stand-alone pondside feature. Some even double up as a filter.

PondXpert Waterfall Filter 44cm

Waterfall Spillway creates a spectacular 'sheet' of water into your pond. Optional use as a filter & plant display too.

RRP £139.99 **Our Price £59.99**

Recommended Flow Rate 6000-14000 LPH

Optional integrated planting pots

Dimensions: 44x48x28cm (LWH)

Inlet size: 20-40mm

Fall includes jap matt, floating plastic media & plant pots.

Superfish Spillways

To get the most impressive results from a waterfall we strongly recommend using a spillway. This is positioned at the waterfall outlet and ensures a natural wider 'spread' of water than from hose alone. This makes the water flow far more realistic to nature's own creations.

Superfish Waterfall Spillway
19cm 20, 25mm Was £29.99 **Sale Price £19.99**

Superfish Waterfall Spillway

All in one Pumps

EasyClear – The Complete Clear & Healthy Pond Solution.

Multi-function, compact pond technology solutions specially designed for smaller ponds. The traditional pond system includes a pump, UVC and external filter as separate but intertwined units. The thinking behind these new products is to combine all three of these essential items in one compact, submerged unit.

The benefits of this idea are:

- Easy no-fuss installation
- Completely hidden under the water surface - no conspicuous filter boxes, hoses or multiple electrical cable
- Just connect item to electrics, place underwater, switch on... and that's it!

Specification

All in one Pumps

Why not add a bio-filter to your All-in-One pump system? Improves water quality & reduces pump maintenance.

All-in-One pumps are a popular convenient choice for a pond filtration system. But a weakness is that the pump foams need regular cleaning to optimise flow (this means fishing pump out of water & getting your hands dirty). The addition of a simple external filter into the cleaning-cycle reduces maintenance & boosts pond health

NEW

Reduce UV Pump Maintenance

Dirty water is pulled into All-in-One pump and water is zapped by the integrated UV unit. Microscopic algae are forced together into clumps and are pushed to the external filter where they are picked up by the foam layers.

Without this additional filtration stage the particles would return to the pond and be collected by the All-in-One foams. This means pump has to be cleaned frequently

PondXpert BioBox Pond Filter 4500

NEW

Outlet Pipe Extension inc. (push fit)

Fountain Pumps

For many an attractive fountain has come to symbolise all that is good about the perfect water garden. From the aesthetically pleasing view of an ever-changing water display to the relaxing patter of falling droplets.

A fountain pumps offers you all of this and more! Your pond and it's inhabitants will thank you too as the moving water helps to aerate the pond by increasing oxygen levels. Most fountains can do more than one job. For instance part of the water flow can be diverted to create a stream or waterfall.

They can even be used to power a filtration system - especially the 'hybrid' fountain pumps which can handle solids. Consider the fountain pump to be the star on top of the christmas tree.

Your pond is not complete without one . . .

PondXpert Fountasia Pumps

Heavy duty fountain pumps, powerful enough to power filters too!

- Dual Flow Control via sturdy 'T' Piece
- Robust strainer cage reduces maintenance
- 10m power cable (33 feet).

Cascade Pumps

The Cascade falls under the well-known Hozelock brand. Like all of this group's water gardening products it offers a high level of quality at a competitive price.

The cascade pump is an ideal all purpose pump for small to medium displays, fountains, waterfalls or ornaments.

All pumps have a double outlet meaning you can run two features from one pump. eg, a waterfall and fountain and the flow to each can be controlled independently. 3 year guarantee up to 3 fountainheads (as shown).

Solar - Fountain Pumps

PondXpert SolaFlow Fountain Pumps

New pumps from PondXpert destined to become a bestseller. Added on-board chip intelligence allows extra features:

- ✓ Timer/Memory**
Three modes of operation - 'Auto' '8hr' and '12hr'. Set daily start time for pump to run.
- ✓ Remote Control**
User has the option of operating the pump remotely with a multi-function remote control unit.
- ✓ Premium Lithium Battery Back-up**
Other XL solar pumps use lead-acid batteries

Additional standard features:

Auto-illuminating LED lights (4x bulbs, bright white).

Choice of fountain displays - 'tiered' or 'bell'

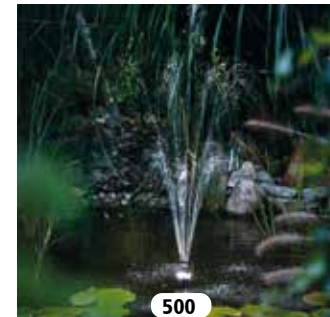

Outlet size:

10mm 200/300
12mm 500-1750

Note: 200 & 300 models not available until August 2026

NEW

Solar - UVC

Those clever engineers at PondXpert have come up with a new pond product we believe is a world first! A solar powered ultra-violet clarifier to stop pond water going green.

Panel Power: 3W
UV Bulb Power: 5W
Panel Lead Length: 5m
Inlet size: 12mm
Battery: Lithium

EXCLUSIVE

PondXpert Solar UVC 5W

The Solar UVC is designed to illuminate for two hours per day. Simply set once then the onboard memory will ensure this same start time is selected daily. The Clarifier unit itself is submersible and designed to be placed underwater with the Panel positioned dry/pond-side. The 5 Watt UVC bulb is powered by the sun with excess solar energy stored in the lithium battery.

RRP £159.99 **Our Price £79.99**

This technological breakthrough means that 'wire-free' water gardening becomes a reality!

Note: Solar UVC needs to be paired with a pump to push water past the UVC bulb. This pump power should be 400 to 1000LPH in flow strength.

Solar - Filter

Most solar pond pumps are designed to create a fountain - if the fountain is disconnected and hose attached to the outlet the water can be fed to a different use (eg, small waterfall, pondside spitter or UVC). BUT Solar pumps tend to be small and light in weight and their small impellers that can get clogged with dirt very easily. Without protection we've found they aren't really suitable at producing a reliable flow for a pond.

To use a solar pump for this alternative non-fountain use it is strongly advised that an underwater filter be used. This holds the pump steady in upright position and collects dirt and debris before they reach the pump.

PondXpert Solar Filter Box (TripleAction)

The filter box used in the PondXpert TripleAction Solar pumps is available for separate purchase. It is similar in design and size to the PondXpert Eco-Filter 2000 shown above but comes complete with gravel and biomed (biological cleaning and ballast). Suitable for all solar pumps.

RRP £99.99 **Our Price £49.99**

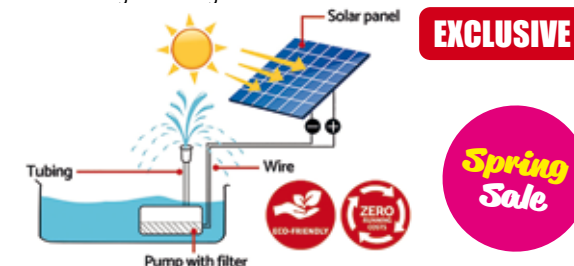

Model	Pond Size Lts	UV Watts	RRP	OUR PRICE
EcoFilter 2000	2000	0	£79.99	£39.99
EcoFilter 4000	4000	0	£99.99	£49.99

Both the above filters need the addition of ballast to keep them submerged. (eg, **Gravel £6.99** or **Zeolite £16.99**).

Solar All-in-One Pond Filtration System

Taking advantage of the latest technological solar UVC and filtration breakthrough we are proud to be able to bring to your attention the first solar 'All-in-One' Pumps.

Now the water in a small pond can be kept clean and healthy without any mains electric wiring or running costs!

EXCLUSIVE

Spring Sale

Solar Powered Pumping with renewable energy

- ✓ Enables a pond to be positioned anywhere without need to access mains electric
- ✓ The first pond filtration system with zero running costs!
- ✓ Mains adapter inc. for indoor battery charging during prolonged periods of poor weather. (800=9v, 1600=13v)

TripleAction HYBRID 1200

NEW

New version with a fresh approach to consider.

No battery is included which enables product price to be reduced. But there is no compromise on quality. Clever on-board circuitry means this unit is powered by the sun - but if cloudy (or during night power) source switches to mains electric. Similar to thinking behind 'Hybrid' motor engines it means the greenest power solution is deployed with priority with traditional energy source backing it up.

Hybrid inverter/solar charger

Sunny - Power drawn from solar

Cloudy - Energy shared between mains/solar

Night - Power from mains

Hyrid model compromises

This pump version needs access to mains power. Mains energy is not free - but low 12W power means running cost is minimal.

Did you know?

No 'shrinkflation' here!

With PondXpert you can be assured that you will receive a top notch water feature. All models showcased here have 'proper' dimensions - ie, substantial size of features are designed to make the correct visual impact in your garden or conservatory. PondXpert have noticed a worrying trend in the market to reduce the dimensions of water features to reduce cost but have decided that this is a false economy.

PondXpert: Reducing prices not quality

The pumps used to power these features are the same quality bestselling pumps we sell individually:

Filter Pumps

Perfect 'Starter' Pump. Solids-handling with energy-efficient motor.

PondXpert MightyMite

Super solution for small ornamental pond owners. These reliable pumps are designed to be run 24/7 pushing water to a filter and/or waterfall.

- Relatively low running costs. Energy efficient motors.
- Extremely quiet in operation.
- Solids handling ability (4mm max particle size).
- Thermal protection - auto-off if impellor blocked.

Easy tools-free access to pump. Makes maintenance quick & easy!

Multiple hosetails included so a range of hose sizes can be connected.

Perfect pump for powering pond filters and/or small waterfalls.

Filter Pumps

"Pump works great with good flow rate. Cage is very easy to open (Probably best on market) with very easy clips for maintenance purposes. Spot on!"

Customer Feefo Review July 2017

PondXpert UltraFlow

At last we have found a pump that 'ticks all the boxes'. Consider the following features:

- Ultra-low running costs.
- 'Auto-Off' function if water level drops too low.
- Choice of 10 models enables user to make a refined choice.
- Alternative inlet feature (blanked off on initial set-up).
- Alternative inlet can be attached to a skimmer or satellite strainer if required.
- Set includes 2 multi-stage hoses (25/32/38/40mm).
- Can be run submersed or 'dry' (ie, suitable for pondkeepers running a gravity-fed system).
- Designed to run 24/7, 365 days per year (handles 6mm solid particles).
- Tool-free access to pump inside filter cage (easy to access and clear out any blockages).
- Three year guarantee
- Carry handle (very useful when lifting pump out of pond)

Filbert Frog's Top Tip

Check your current pump power ratings. An old pump may have a high wattage and these are expensive to run. For instance a 'typical' 5yr old 8000lph pump could be 180W. The UltraFlow is just 70W. Running 24/7 the UltraFlow could save you £240 per year off your electricity bill*.

Pump Dimensions:

LWH: 25 x 18 x 11.5cm

Relatively compact - suits any size of pond

* Electricity costs vary - please check with your current supplier. Example given is cost of £0.25pkwh.

All pumps accept hose 25 / 32 / 38 / 40mm and come complete with 10m outdoor power cable

Fibert Frog's Top Tip

Good news! UK Electricity prices have reduced! Typical Kwh price now 24.67p a big drop from the peak seen in 2023 (33.2p). But with energy costs running high it's still a wise decision to upgrade to an ultra-low energy pump (eg, PondXpert UltraFlow) - this will dramatically reduce running costs. Even better, consider installing a variable flow pump which can reduce bills further still!

Bestselling variable flow pumps New for 2021 is a range of accessories to make these pumps even better.

Pond Filtration

How it works

Your pond pump is designed to suck up dirty pond water and push it to a waterfall and/or filter. Filtration is the process by which your pond is cleaned of impurities. Once the water reaches the filter it usually passes through three key stages:

1 UVC Radiation

If your filter has a built-in UV unit this exposes the water to UVC rays which cause microscopic single cell algae to flocculate (that is to stick together to form larger pieces). This action causes this suspended algae to die and fall to the bottom of the pond. This clears the water and the solid particles are sucked up by the pond pump.

2 Mechanical Filtration

Dirt such as fish waste and algae particles generated by UVC radiation are caught in physical mechanical barriers. Foams are a typical example - often with multiple grades to catch even the smallest pieces.

3 Biological Filtration

Dirt-free water then passes through a bed of bio-media. This material will often have a multi-surface appearance for healthy bacteria to stick to and thrive. Such bacteria break down ammonia into Nitrite. Nitrite is broken down into nitrate.

Flow-through Filters **UVC Included**

Lotus Green Genie

Popular entry level filters. Inlet tap to regulate flow into tank.

Inlet Size:

Main types of pond filters available:

Flow-through Filters (pages 55-57)

The traditional 'Box' filter sits pondside or at the top of a waterfall. Pond water is pushed into one end and returns via gravity from the other. These filters are generally larger and provide a massive area of filtration media to cope with larger ponds.

Koi & Large Capacity Filters (pages 62-64)

Pressure Filters (pages 58-61)

A more modern approach is to house the filter media into an airtight cannister. The water enters the filter under pressure and leaves it under pressure allowing the filter to be hidden. Great for smaller ponds - these filters provide maximum landscaping opportunities.

Lotus Clear Pond Filters

Advanced 7 Stage filter with larger UVC and quick action back flush (de-sludge system)

- Red Brush chamber for heavy solids
- Blue Foam cartridges chamber
- Green, white & blue graded foams
- Top outlets - can be partly buried
- Good enough filter for koi/mixed stock. (½ volumes for koi in table)

Dimensions (cm)
18 - 46 x 30 x 41, 25 - 54 x 40 x 39,

PondXpert FiltoBox

Introduced in 2010 these flow-through filter boxes consistently top our bestsellers chart. Feature-packed yet very competitively priced it is no wonder they are a firm favourite with our customers.

- Top outlets mean filters can be buried up to 2/3 of height
- High quality construction
- Sludge drain for easy cleaning
- Easy Access to UVC.

Save £50 on all FiltoBox

FiltoBox 8000

A new addition to the FiltoBox series this filter shares all the popular aspects of the 6/12000 plus additional features:

- Thermometer on lid
- Jap matt filtration level
- Maintenance indicator
- Outlet extension 50mm elbow

Elbow outlet extends filter positioning opportunities

Filters Outlets

Pipe through which clean water returns to pond from filter.

Model	Outlet size (diameter)	Extension Included?
6000	50mm	Yes (straight)
8000	50mm	Yes (elbow)
12000	70mm	No (pg113)

Pressurised Filters

PondXpert EasyFilter

These new filters are a joy to use - simply rock the switch to the 'clean' position to backflush the filter of accumulated dirt via the special waste outlet. This dirty water can be directed to your drain or flowerbeds.

- Easy clean feature
- In-built UVC for clear water
- Gradiated foams for mechanical filtration
- Biomeida for biological filtration
- Filter can be buried underground if required.

So easy to clean... 'Rocker' handle switches from 'clean' to 'waste'.

Three inlet/outlets as found on more expensive filters. 20-40mm Inlet, Outlet & Waste (12-25mm 4500)

PondHero Turn2Clean Filters

Introduced in 2025 these extra large pressure filters boast powerful UVCs & easy-clean technology. Their large capacity mean that pondkeeper's with bigger ponds can now enjoy the benefits of pressurised filtration.

The bigger filters come complete with increased features but still at a highly competitive price.

Dimensions (cm) 4500 - 27 x 37, 9000 - 34 x 44, 12000 - 34 x 52, 15000 - 55 x 53, 20000 - 55 x 63 diameter x height

Better landscaping - Can bury up to lid

Pressurised Filters

Hozelock Bioforce was the original pressure filter. In 2015 the Bioforce Revolution launched. This revamped design completely re-engineered pond filters for the 21st Century - and our customers love it!

This clever product features a **unique and innovative** cleaning mechanism. The secret to the success of this filter is its use of micro block foam filter media rather than the usual 'rings' or 'blocks'. This means the foams shed dirt and debris far more effectively.

- Powerful UVCs prevent green water
- Efficient Biological Filtration (Kaldness K3 media in bottom chamber)
- Diverter valve switches dirty unwanted water to waste outlet
- Hose Inlets 25-40mm.

Dimensions: 6000: 27 x 27 x 37cm (LWH), 9000: 27 x 27 x 46cm (LWH), 14000: 40 x 40 x 51cm (LWH),

The perfect filter upgrade
The Recommended pressure filter for koi/mixed fisheries.

Just look at our test results . . .

Fig. 1

Fig. 2

Fig. 3

We were astonished (and embarrassed!) by the amount of dirt the filter picked up. **Fig. 1** shows the discharge with **Fig. 2** showing the dirt continuing to flow. By **Fig. 3** we were ready to switch the water back to the pond. After completing this very easy cleaning regime a few times in a fortnight the positive results were clearly visible.

pondXpert

SpinClean Auto Filters

Procedure when it's time to clean:

- 1) Switch Off Pump.
- 2) Turn blue dial so arrow is facing waste outlet.
- 3) UV light turns colour red and the motor turns the cleaning paddle against the sponges.
- 4) After 3 minutes cleaning a beep indicates cleaning is finished.
- 5) Switch pump on to wash dirt away to waste.

Procedure Update - Users report that pump doesn't have to be turned off during cleaning. Turn blue dial on/off to clean!

Koi Filters

Evolution Aqua EazyPod

Evolution Aqua produce the most modern pond filters on the market today. The EazyPod has been designed with small koi ponds in mind (10,000 litres - 2200 gallons) but it's superior design can also be employed on ornamental/goldfish ponds. In this less demanding environment the EazyPod can handle up to 20,000 Litres (4400 gallons)

How it works . . . Regular Running

Dirty water enters filter and is drawn to the centre of the pod. Water passes through special Kaldness filter media which traps the dirt. Dirt gets stuck in the filter media - clean water returns to pond.

How it works . . . Cleaning

Switch off pond pump. Switch on air pump to agitate the filter media. Filter media bubbles up and dirt is dislodged. Run dirt to waste - Switch pump back on.

23inches (58cm) tall and wide

New Colour Choice
All EazyPods now available in green colour finish too!

Nexus 220 & 320 Koi Filters

For larger koi ponds the Nexus Eazy 220 and 320 are proving highly popular with our customers. The concept of the vortex shape with the EazyPod is repeated but the air pump also supplies an outer chamber. This 'floating bed' is full of media and is rich in healthy bacteria to convert Ammonia and Nitrite into harmless Nitrate. The 220 can be used with koi ponds up to 18000 Ltrs (4000 gallons), the larger 320 up to 34000 Ltrs (7500 Gallons)

Dimensions (LxWxH)

SpinClean AUTO Pro 50 & 75

The first pressure filter designed with Koi-Keeping in mind. Perfect for keeping water clear & healthy in large ponds up to 75,000 Litres (Koi ponds 37,500 Litres). Supplied with X2 Biomedia, a cassette of larger Biomedia & filter foams.

						Add a pump & save £££'s			
Model	Pond Size Ltrs	UVC	X2 Media	RRP	OUR PRICE	Set Name	Pump in Kit	OUR PRICE	Save
Pro 50	50000	55W	35L	£1699.99	£849.99	Pro 50 Set	UltraFlow 16k	£919.99	£129.99
Pro 75	75000	60W	70L	£1999.99	£999.99	Pro75 Set	UltraFlow 20k	£1099.99	£129.99

Both filters accept hose sized 25/40/50mm. 'One Touch' motorised cleaning is activated by twisting blue Control Dial on lid of unit. Chamber capacity of new 75 model is a massive 300 ltrs and pallet delivery is included.

Hand crafted extra large fibreglass chamber (volume 170 Ltrs). 226% bigger than the 40000.

Cut-away image shows internal foams and Floating Bed. Floating Bed creates a home for healthy bacteria.

Solid particles from dirty water attach to foams. Water flow then forces biomedia to tumble around the extensive outer skin area.

PondXpert MultiChamber Pond Filters

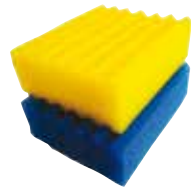

Professional multi-bay filters at a highly reasonable price. There is a good range of sizes with a solution to most pond requirements. Each filter box/bay comes complete with graduated foams, filter mat and biomedia. The foams sit in cassettes and are very easy to remove - simply push the sponges against the grips for easy cleaning.

"GreenStop Pro" UVC Upgrade

– Enhanced UVC Unit which fits neatly onto the rear of all models as shown (attached to MultiChamber 18000).

- 2 x Inlet Hosetails 20-40mm
- Temperature Dial in lid
- 2 x Outlet pipes. One 70mm and one stepped fits 40/50mm
- Foams, Japanese matting and biomedia included

Outdoor Power Management

The use of weatherproof outdoor switchboxes mean you just need one cable to your mains supply and you can control your equipment pondside. Any lengths of exposed outdoor cable should be housed in a metal sheath to prevent accidental breakage.

PondXpert Outdoor Switchboxes

Outdoor switchboxes are essential pondkeeping kit. These sturdy switchboxes offer a number of outlet options and are easy to wire up.

Max load per outlet 400 watts.

Max load per 'box (1200W/1600W/2400W for 3/4/6 Way respectively). Inlet accepts standard outdoor cable.

Pond Cleaning Tools

These nets are strong enough to fish a pump out of the water

PondXpert VariNet HD - Interchangeable Head Hand Net System

Extra Strong Nets - Ideal for handling big jobs around the pond

Super strong pond net with hyper-extension telescopic pole. This professional net system has a choice of heads. Max reach 3m (10') Rubberised finish and scrape bar protection on netting for long life Pole is lightweight (yet incredibly strong) - so more comfortable in use.

Image shows standard VariNet pole vs VariNet HD pole. The difference in girth is easily evident plus the HD poles come with a foam grip half way down the shaft for better grip.

Alongside the original 3m length telescopic pole there are new fixed length 1m and 0.4m poles.

- Tough Brush Head for scrubbing waterfalls and liner sides. Handy for lifting out blanket weed using a 'twirling' action too

Was £29.99 **Now £19.99**

Pole fits onto VariNet net heads. See pg 67.

Pond Vacuums - Manual/Water Pressure Pond Vacuums

PondXpert Telescopic Pond Silt Remover

Hand Operated

A simple, easy to use hand operated pump device for removing silt from the bottom of the pond.

Every pond accumulates a layer of silt and debris in the bottom of their pond no matter how hard you try to keep it clear. This can lead to problems with water clarity, pollution of the water etc and therefore should be removed frequently.

This silt vac is the ideal solution - lightweight and not powered by electricity, it can be taken to the pond, used to hand pump out the silt and stored ready for next use.

Every pond keeper should have one!

Features:

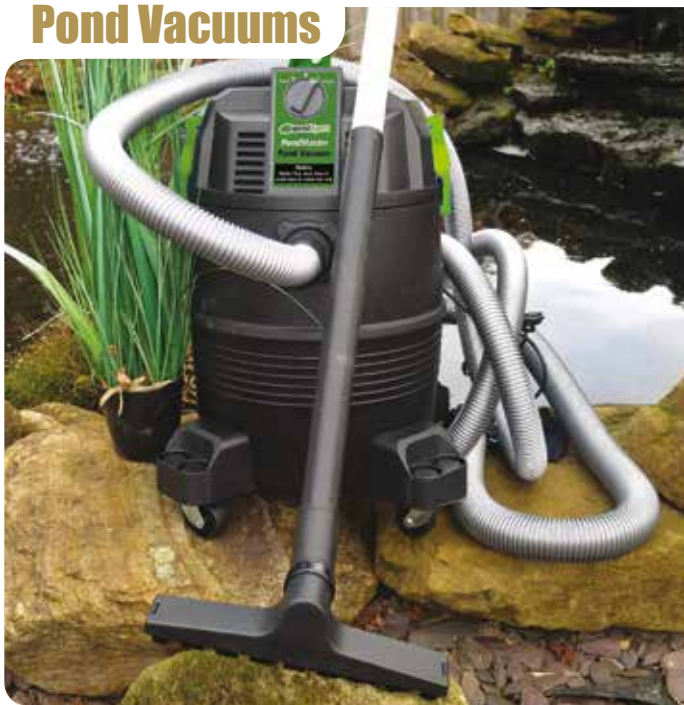

- Easy to use
- Telescopic - extends to 2 metres (6' 7")
- Also removes floating debris
- Complete with strainer bag
- Simple 'bicycle pump' action

Silt Remover

RRP £99.99 Was £49.99 **Now £39.99**

Pond Ultraviolet Clarifiers (UVCs)

Ultra Violet Clarifier

What is an Ultra Violet Clarifier?

A UVC consists of a chamber holding an electrical lamp behind quartz glass. Water is pumped through this chamber to prevent pond water turning green.

How Does It Work?

Pond water is subjected to high levels of U.V light. This U.V. light causes the microscopic single cell algae to be clumped together allowing them to be collected and broken down by the biological filter.

Before UVC

Typical "pea soup" colour.

After UVC

Clear water lets you see what is happening below the waterline.

PondXpert GreenClear UVC

Entry-level UVCs with small price but BIG features! Single inlet then choose to use single or dual outlet. 20/25/32/38/40mm Inlet/Outlet
 5m power cable

Air Pumps

Adding oxygen to a fishpond is very important to fish health. This is particularly true in summer months and if the pond is heavily stocked. But even in ponds without fish an air pump will help keep the water fresh - particularly if a waterfall or fountain is not present.

What Size of Pump for my pond?

We have included a table (right) as a buying guide. Many pondkeepers do not keep fish in the pond and here addition of a smaller air pump will be sufficient. Fish ponds require a larger amount of air, koi ponds especially. If keeping other 'oxygen hungry' species such as sturgeon then the flow suggested above should be amplified further. Indeed please treat this as advice as a guide only - every pond is different. Remember oxygen can be gained from pond plants, fountains and waterfalls too!

NOTE: Remember the higher the water temperature the less dissolved oxygen the water can hold.

Air Pump Sizing Guide			
Air LPH	Pond Volume (Litres)		
Output	No Fish	Fish	Koi
210	1500	1100	500
450	3000	2500	1200

Solar Air Pumps

PondXpert SolarAir 100

Max Air Output 100lph, one airstone, 1m airline, 1W Panel.

RRP £69.99

Our Price £34.99

Solar Air Pumps BATTERY

Pond life needs oxygen more at night. Plants produce oxygen during the day then consume it at night risking potential air depletion especially in warm weather.

PondXpert SolarAir 200

Max Air Output 200lph, one airstone, 1m airline, 1.4W Panel.

RRP £89.99 **Our Price £44.99**

PondXpert SolarAir Float

Air pump designed to float on the surface of your pond (or can be moored pondsides).

- Maximum air Output 150lph
- 0.8W solar panel
- 0.5m airline with single airstone

RRP £79.99 **Our Price £39.99** Battery version **£49.99**

PondXpert SolarAir 150 PLUS

Solar air Pump with Lithium battery. Pump integrated into panel to save space. Max Air Output 80lph, one airstone, 1m airline. Quality Lithium battery. 4.5W solar panel.

RRP £99.99

Our Price £49.99

PondXpert SolarAir 200 PLUS

Solar air Pump with Nimh AA battery. Twin airstone. Battery can be charged by mains adaptor (available separately). Max Air Output 200lph, two airstones, 2m airline. 5.5W solar panel.

RRP £119.99

Our Price £59.99

Accessories

PondXpert SolarAir 200 PLUS Mains Adaptor Set

Use this new 6.3V mains adaptor to charge up the battery-pack supplied with the unit. Set includes an adaptor to fully charge the battery and a transformer cable so unit can be powered directly from the mains. Set is not weatherproof - charging must be indoors or a dry area. Enables air-pump to be used indoors (eg, for an aquarium).

RRP £25.99 **Our Price £12.99**

All adaptor & transformer cables **NOT** weatherproof

PondXpert Replacement Airstones

Airstones will wear out over time - don't worry as we have the replacement airstones suitable for all PondXpert models.

Round 20mm RRP £1.99 **Our Price £0.99**

Disc 40mm RRP £2.99 **Our Price £1.49**

Filibert Frog's Top Tip

Switch up your solar oxygenator standard airline to weighted 'sinking airline'. It disappears from water surface - making your pond much more attractive! See pg80

New Sinking Airline 10m length mini-roll **only £9.99**

PondXpert SoloOxy 200

High output lithium battery pumps with 3 model options. Able to run 24hrs per day. Two operating modes 'Continuous' & 'Interval cycle'. Flow control low/medium/high. Available with 1 or 2 outlets & a premium model with Remote Control.

- 5W panel
- Max output 200lph
- 3.7v-4000mAh Battery
- XL airstones
- USB charging (cable inc.)

NEW

SoloOxy 200 Single RRP £119.99 **Our Price £59.99**

SoloOxy 200 Duo RRP £139.99 **Our Price £69.99**

SoloOxy 200 DuoRC RRP £159.99 **Our Price £79.99**

In 'Day' mode the pump will output air when sun is shining with any surplus energy being stored into battery for use when weather conditions change. When 'Night' mode is selected the pump will store energy during the day then automatically oxygenate the pond at night (when your pond needs it most). Max. run time (on battery) 12hrs.

- Unique twin motor design
- Reliable proven performance now with higher power solar panel

Auto-start at dusk feature

Pond Deterrents

Isn't it time to scare away those pesky herons for good?

Velda Laser Guard

Hérons are one of the hardest creatures to scare away but Velda of Holland are determined to find the answer!

The latest motion-activated deterrent utilises laser lighting, strobe effect and three different degrees of sound.

Our Price £199.99

Pond Protector - Harmless electric fence

Efficient method to keep herons and cats away from a pond. The transformer gives off a low voltage electric pulse to the fence round the pond.

This shocks herons or cats and persuades them to try elsewhere. Inclusive of transformer, 10 synthetic rods, 80m of electric fence, connectors and instructions.

The electric cable has a length of 80m, which is sufficient to protect 40 metres of pond side with two cables. Extension set provides an additional 40m coverage.

Pond Electric Fence Was £99.99 **Now £69.99**

Pond Electric Fence Extension Set £39.99

Protector + Extension £89.99 **SAVE £19.99**

Velda Spinner

Spinning scarer moves in the wind.

RRP £38.99 **Our Price £29.99**

Velda Reflector

Floating mirrored sphere scarer.

RRP £26.99 **Our Price £19.99**

Replica Heron

Hérons are territorial creatures so usually avoid each other. Place this realistic replica near your pond and it should help to stop the real thing.

Was £24.99

RRP £39.99 **Our Price £19.99**

EA Filter Start 1 Ltr

RRP £22.95 **Our Price £21.45**

PondXpert Filter Media Bags

Mesh bag with drawstring that can be filled with your choice of filter media. Then filled bag can be placed in your filter chamber.

Small Media Bag (45x30cm)

RRP £15.99 **Our Price £7.99**

Large Media Bag (60x45cm) RRP £19.99 **Our Price £9.99**

PondXpert Zeolite 5 Ltrs

(Approx 8kg)

Reduce algae & ammonia issues. FREE Filter Mesh Bag included.

RRP £34.99 **Our Price £16.99**

Velda (VT) Media 5 Ltrs (treat 3000L)

VT Filtra Sub Filter Media

Coarse structure helps remove coarse dirt particles. Perfect for the first stage of the filtration process.

RRP £19.99 **Our Price £15.99**

VT Zeolite Filter Media

Zeolite is a natural stone which binds nitrates & phosphates. This helps keep ponds algae free. Also useful at reducing ammonia & nitrite issues.

RRP £27.50 **Our Price £22.99**

VT Lava Rock Filter Media

Very porous rock - a natural material with many coarse pores. Ideal for the intermediate stage of filtration.

RRP £18.49 **Our Price £14.99**

VT Carbon Filter Media

Activated carbon is highly effective at removing fine particles such as: fine dirt, aromatic substances & colourings. Use as a final stage of filtration.

RRP £33.29 **Our Price £24.99**

Pond Treatments - Inline Dechlorinators

In-Line Dechlorinators

As most fish-keepers know tap water is great for us humans but not so good for the fish we look after. Tap water contains chlorine and other impurities that are hazardous to fish.

It is therefore essential that these elements are removed from tap water before it is used to 'top-up' or fill a pond. An inline dechlorinator saves playing around with messy liquid treatments or waiting for chlorine to 'gas-off'.

Simply running tap water through one of these units ensures your water is pond-safe straight from the tap and one unit will be enough to decontaminate 200,000 litres of water - an amount that will take a typical Pondkeeper 2 years to get through.

Evolution Aqua Detox Dechlorinator

Hi-grade activated carbon removes chlorine, chloramine, bromine, malachite green, dyes, colours, humic acids, organics, proteins, antibiotics, hormones and ozone.

Improved in 2017 with high capacity carbon for optimum chlorine removal. Recommended flow rate: 4 litres per min.

The 12 inch high-grade activated carbon filter will treat up to 225,000 Litres / 49,493 U.K. Gallons.

The 30 inch high-grade activated carbon filter will treat up to 550,000 Litres / 122,083 U.K. Gallons. Maximum treatable water is based on incoming 0.5ppm chlorine.

12" Detox Dechlorinator In Line Filter Our Price £84.95

30" Detox Dechlorinator In Line Filter Our Price £124.95

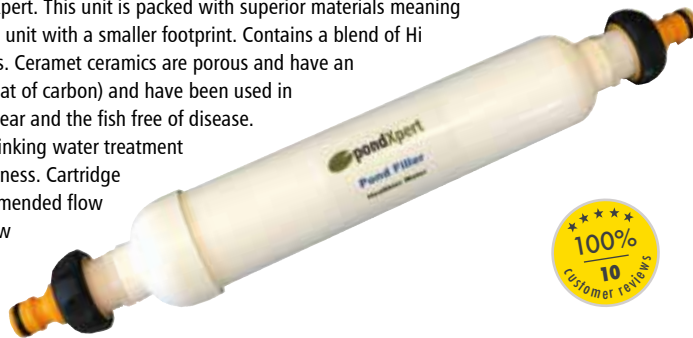

PondXpert 10" In-Line Dechlorinator

New advanced dechlorination from PondXpert. This unit is packed with superior materials meaning increased capacity can be achieved from a unit with a smaller footprint. Contains a blend of Hi Grade carbon and Ceramet active ceramics. Ceramet ceramics are porous and have an extremely large surface area (500 times that of carbon) and have been used in Japan for many years to keep Koi ponds clear and the fish free of disease.

Premium 'Hi Grade' carbon is used as a drinking water treatment illustrating its trusted quality and effectiveness. Cartridge will treat up to 150,000 litres. Max recommended flow rate 9 litres per minute (the slower the flow rate - the more impurities are removed).

RRP £139.99 **Our Price £69.99**

Pond Treatments - BlanketWeed Cures

Spring Sale

PondHero BlanketWeed Blaster - Solar Algae Remover

String algae or blanket weed can be a real problem in late spring/summer. This new solar ioniser from PondHero tackles the problem quickly and effectively.

Float the unit on your pond and sunlight activates release of copper ions into water. Copper ions bind themselves to pond contents preventing algae growth.

!!Excess copper ions are dangerous to pond life (see 'operating advice' below)!!

Benefits

- So easy! Simply floats on your pond surface
- Clears string algae quickly
- Releases copper ions to combat algae growth
- Works in sunny weather just when algae worst
- No messy wiring or running costs
- No need to cut into existing hose pipework

Save £30

Operating Advice

Not recommended for use in ponds with fish (can be used with careful monitoring). Use when pond water 12 degrees C or higher. Powerful & Effective - designed to be used for 'short blasts' in smaller ponds. Remove from action once weed is cleared.

- Also suitable for hot tubs and swimming pools

PondHero BlanketWeed Blaster - Solar Ioniser

RRP £159.99 Was £79.99 **Sale Price £49.99**

Pond Treatments - BlanketWeed Cures

BlanketWeed is a long string algae that thrives in healthy ornamental ponds. Its growth is increased by bright sunlight and shallow fast running water so it will be found in water-falls and unshaded pond areas. Overstocked fish ponds can also contribute.

The simplest 'natural' treatment is to stock the pond with plants and animals that actively consume blanket weed or compete for the same food. Other highly successful methods include the careful use of copper ions, barley straw and pond vacuums.

Barley Straw - The Traditional method used since the middle ages

Safe to use. Not affected by recent HSE recall

PondXpert Barley Straw Essence

Effectively clears blanketweed and green water.

1000ml treats 22750Lts (5000 gal).

250ml **£8.99**
1Litre **£19.99**

PondXpert 'Throw 'n Go' Barley Balls

Biodegradable gel spheres packed with barley straw extract. Simply drop one ball per week into pond (each ball treats 5000l).

Barley Balls **£14.99**

Blagdon Barley Straw Bugs

Works like barley straw without the unsightly bales.

250ml RRP £17.99 **£15.99**
500ml RRP £32.49 **£27.49**
1ltr RRP £59.49 **£49.49**

PondXpert Twin Pack

The traditional method against blanket weed and algae. Float the net of barley straw just below the surface. Each bale treats 2250 Ltrs.

Twin Pack **£9.99**

Barley Straw Midi Bale

Larger bales for big ponds. Each log treats 13,500 Litres (3000 gallons) for 8 weeks

Midi bale RRP £29.99
Our Price **£14.99**

PondXpert Barley Flakes

Unlike traditional barley straw which sits on the pond surface these 'Flake' pouches are designed to sink to the pond bottom.

RRP £14.99
Our Price **£7.49**

Tetra AlgaFin

Effective and safe treatment for persistent blanketweed and other pond algae.

Fish Food

Fibbert Frog's Top Tip

Only feed once a day at season end/start (5-8°C). In summer (10°C) can feed 2-3 times. Remove any uneaten food after 5 minutes.

In established pools, where there is a good balance of plants, wildlife and fish there will be plenty of natural food for your fish to feed on.

However, pond food acts as a supplement to the fishes' diet and is enjoyable for the pondkeeper.

Often ponds will be more heavily stocked and there may not be enough plant life to attract insects.

Here feeding is vital to the health of the fish. High protein foods should be fed in the summer with only low protein (eg, wheatgerm) fed in the winter.

Tetra Floating Sticks

A complete staple food for all fish. The UK's bestselling pond food.

780g	£16.99
1.2kg (10ltr bucket)	£21.99
1.68kg	£29.99

Pond Feeding Equipment

The future of feeding has arrived...

Sale £30

PondXpert FoodFlinger Pond Fish Feeder

Feeds your fish when you are not available. New Auto-Feeder with solar power. Very easy to use with full control via LCD control panel. Clever anti-clog design means regular, reliable feeding.

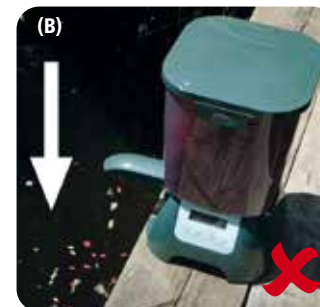

RRP £239.99 Was £149.99 **Sale Price £89.99**

Super Features

- Rechargeable batteries powered by solar
- 6 Litre capacity accepting pellet & stick food
- Control size of feed (0 to 20 seconds)
- Control number of daily feeds (1-6)
- Control 'scatter power' (60-100%) distance

Accepts pellet & stick style food 3-10mm.

Includes 4 stake feet for optional additional stability.

(A) PondXpert FoodFlinger offers powered propulsion. Food can be propelled a controllable distance (3ft to 10ft) at wider arc of 160 degrees.

- Allows multiple siting opportunities
- Fair distribution of food enabling all fish to feed

(B) Traditional 'auto-feeders' can be troublesome to position pond-side. The food drops down vertically from a chute into the water. Greedy fish can monopolise meals.

FoodFlinger Mains Adaptor

FoodFlinger powers its rechargeable batteries (supplied) via an integrated solar panel. One charge lasts up to 3 months but an optional Mains Charger is available.

RRP £19.99 **Our Price £9.99**

Introducing

pondXpert
nutrition+ Pond Food

Nine super varieties to cover all pond fish requirements.

Seven mainline foods available in three handy sizes:

1KG Bags

4Kg Bags

10kg Bags

(Save 50% buying a 10kg bag vs 1kg).

Bestselling Food Range Improved

Food Variety	Description	Protein

Pond Feeding Equipment

Hozelock Automatic Fish Feeder

Indispensable for holiday feeding, the Automatic Fish Feeder can be mounted on a pond wall or on the supplied stand. Operate via a single control incorporating a battery-operated clock and a frequency dial which gives a choice of up to six feeds per day. The food chamber holds up to 800ml (approx. 100g) of fish food.

RRP £205.39 **Our Price £109.99**

Fishmate Fish Feeder

Automatic fish feeder for up to 21 days. Reliable and accurate timer AA battery included.

RRP £59.90 **Our Price £49.99**

Fish Mate P7000 Pond Fish Feeder

FISH MATE

Suited to larger ponds for use with pellet or 'stick' food. Variable feed sizes are dispensed at programmed times or on demand at the touch of a button.

- 7 Litres/ 6.5lbs / 30 cup capacity dry food hopper.
- Easy to use LCD control with approximately 6 to 9 months battery life in continuous use.
- Unique feed mechanism ensures accurate and consistent feed sizes from teaspoons upwards.
- Weather-resistant
- Can be fastened to a secure base for increased stability.
- Suitable for most popular food sticks and pellets

Fishmate P7000 feeder RRP £115.23 **Our Price £84.99**

PondXpert Thermometer

Knowing the correct water temperature of your pond water is vital when to feed and add treatments. This floating thermometer gives you the information you need.

RRP £19.99 Was-£9.99 **Sale Price £7.99**

PondXpert Feeding Ring

Floats on surface and allows easy removal of uneaten food & prevents food drifting around surface.

RRP £4.99 **Our Price £2.49**

Supa Vacation Block

Concentrated block of fish food that will supplement the diet of your fish for up to two weeks.

- 50 gramme block
- Protein 40%, Fat 8%, Fibre 2%, Moisture 8%

RRP £2.99 **Our Price £2.49**

Tetra Holiday Food

One block feeds 10-15 medium sized goldfish, or 2-3 medium sized koi, for 14 days. If your pond contains more fish, increase the number of blocks accordingly.

RRP £8.99 **Our Price £6.99**

Product Description

Attractive pond lights suitable for use above or below water. These lights are easy to position thanks to weighted tripod stands and ground stakes (included)

Each powers a 20w halogen bulb and comes complete with transformer and four coloured discs.

2m Cable from plug to weatherproof transformer, then 5m to first Light, then 2m to Subsequent Lights.

Pond Lighting

The right lighting enables you to create limitless effects in your garden.

Lighting displays are magnified by the reflective nature of water while fountains and waterfalls look even more dramatic at night.

PondXpert Pondlight LED 3

This triple 5 Watt* LED spotlight set can be used in or out of the water. The three lights are connected to a low voltage 12v/30w transformer for safety.

- Adjustable light angle.
- 5m electrical cable between transformer and first light - 1m between each other light
- Supplied with 3 packs of 4 coloured lenses: red, green, yellow and blue.
- 1 year guarantee

Pond Plants

Water gardens give the keen horticulturist an opportunity to grow a number of aquatic-friendly species.

Introducing plants to your pond is beneficial for optimising 'pond balance'.

Live Pond Plants

We are delighted to be able to offer you a top selection of plants from the UK's best aquatic nursery. Our customers love our Variety Packs of Six 9cm plants - Your Pack of 6 will be made from a selection of 13 plants. These will be chosen by the nursery pickers based on availability and quality of the plants at time of despatch (ie, what is in-season).

Water Lilies (1 ltr pot)

Spectacular flowering plant.

- Red Lily £24.99
- White Lily £24.99
- Yellow Lily £24.99

Pond Plants

As well as looking beautiful aquatic plants play an important part in keeping your pond balanced. Plants absorb nutrients, reduce light levels in the water and produce oxygen. Plants also provide shelter for fish and natural material on which they might spawn.

Planting Baskets

Aquatic planting baskets have been designed with mesh to help retain the soil. A fabric liner can be used to reduce any soil leaching.

★★★★★

37
Customer Reviews

3 for 2

How to choose a planting basket size.

Submersed Plants: 10cm wide or kidney shape and larger.

Bog Plants: 18-23cm wide for small bog plants, 28-36cm wide for large bog plants like Iris. Kidney shape baskets are also great for arrangements of 3-4 young bog plants.

Water Lilies: 20-25cm wide work for Dwarf lilies, but for regular lilies we recommend the XL 40cm size.

Fibbert Frog's Top Tip

Did you know a 10 litre bag of soil will fill 1 x kidney basket? In order to help you decide how much soil you need we have added a 'capacity' column next to our planting baskets. Hope this helps!

Planting Bag

Easy to use, more flexible than baskets, fit in small areas.

ShedShield EPDM

Shed Roof Kits

Pondkeeper has been a rubber sheet specialist for nearly 20 years. Now we are offering you the chance to waterproof your garden buildings as well as your pond!

As a volume buyer of rubber lining we are able to buy in bulk direct from the factory. This enables us to pass onto you highly competitive Roof Kit deals.

Perfect For

- Sheds & Summerhouses
- Office Rooms & Cabins
- Play houses & storage

* Savings based against post-promotion pricing

Each Kit includes:

- Rubber EPDM single sheet 0.8mm
- EPDM Mastic 310ml
- Water Based Deck Adhesive 2.5L
- Roller applicator
- Instllation instructions

Shed Size Imperial	Shed Size Metric	EPDM Liner Size	Standard Price	OFFER PRICE	You Save
6 x 4ft	1.83 x 1.22	2.1 x 1.7m	£63.60	£53.00	£10.60
7 x 5ft	2.13 x 1.52	2.5 x 2.0m	£80.40	£67.00	£13.40
8 x 6ft	2.44 x 1.83	3.0 x 2.5m	£106.80	£89.00	£17.80
10 x 6ft	3.05 x 1.83	3.5 x 2.5m	£118.80	£99.00	£19.80
10 x 8ft	3.05 x 2.44	3.5 x 3.0m	£137.99	£115.00	£22.99
12 x 10ft	3.66 x 3.05	4.0 x 3.5m	£172.80	£144.00	£28.80
14 x 8ft	4.27 x 2.44	5.0 x 3.0m	£187.20	£156.00	£31.20

Each EPDM Sheet includes 30cm of spare material on the length and width and can be easily trimmed to final size with scissors.

Note: Rubber roofing sheets include factory welded seams universally typical of the vulcanising process.

EPDM rubber is a superior roofing material compared to shed felt

Bitumen Roofing Felt

Affordable roofing supplied with many outbuildings in the UK. Joined on-site. Low-cost benefits are unfortunately outweighed by lower performance and higher maintenance levels. Felt is not UV protected so will degrade quite quickly Around 5 years lifespan is typical.

EPDM Waterproofing Membrane

Supplied as a single sheet. Guaranteed for 20 years - 50 year+ expectancy UV Stable Maintenance free Tear resistant.

Pond Hose & Clips

As your pond water makes its journey from your pump to its destination - via a UVC, filter or waterfall - it needs to be constrained by a network of hose. This hose should be fixed securely to the equipment using clips - this helps prevent any chance of the hose becoming loose or leaks affecting performance. As with most things items fail due to the weakest link, that is why we only use premium hose and accessories.

PVC Pond Hose

Features:

- Smooth bore-minimal flow restriction
- Will not kink or split
- Convenient 5m lengths will suit most ponds

Clips

Features:

- Zinc plated, will not corrode
- Easy to tighten

Filbert Frog's Top Tip

Use the largest size of hose available for the equipment involved - this results in less frictional loss resulting in optimal performance.
